Miva, Inc. Partners with TaxJar to Simplify Sales Tax for Online Sellers

New Module Helps Online Merchants Easily and Accurately Automate Sales Tax

San Diego, CA – June 4, 2019 – Miva, Inc., eCommerce software and service provider for mid-size and enterprise merchants for 21 years, and TaxJar, the leader in technology solutions for sales tax automation, today announced the release of a new sales tax management module for the Miva eCommerce platform.

This new module gives Miva customers the ability to perform instant sales tax calculations for the US, Canada, the European Union, and Australia. Merchants can also create and manage product-level tax categories within Miva, receive accurate return-ready reports, and enroll in TaxJar's AutoFile to automate the filing of sales tax returns in every state.

"We are pleased to welcome Miva to the TaxJar Integration Partner Program. Our program recognizes the best-in-class solutions for eCommerce businesses," says Lee Hadsock of TaxJar, "We are proud to be working with Miva and look forward to supporting Miva merchants."

"Miva is always working to find new ways to help eCommerce stores succeed," says Brennan Heyde, VP of Product at Miva. "By automating sales tax management, this new module helps stores grow and scale without worrying about the accuracy of their calculations and reports."

The TaxJar Sales Tax Automation module is now available in the [Miva App Store](#).

About Miva, Inc

Since 1997, Miva has delivered expertly-designed eCommerce solutions to help high-growth businesses serve their customers in the most innovative, forward-thinking ways possible. Miva stores deliver superior online shopping experiences and support sophisticated back-end eCommerce workflows. Miva is the only cloud-based platform that provides a reliable and expandable enterprise eCommerce solution from a single source. Miva owns and maintains the Miva Merchant software and cloud-based hosting environment. Visit [miva.com](#) for more information.
