AMERICA, INC.**

FOR IMMEDIATE RELEASE

Sumitomo Chemical America, Inc. and Corporate Venturing and Innovation Office (CVI) Engages Next-Generation Sustainable Technology Entrepreneurs and Start-ups

Change and innovation for a sustainable future.

Are you an innovator or entrepreneur? Sumitomo Chemical America, Inc., (SCAI) Office of Corporate Venturing & Innovation (CVI) located in Cambridge, MA., is engaging promising tech startups and experienced tech entrepreneurs focused on next-gen sustainable technology businesses.

New York, New York USA, June 28, 2019. Sumitomo Chemical America, Inc., is a member of a group of more than 160 companies operating around the world in business sectors as diverse as Petrochemicals & Plastics, Energy & Functional Materials, IT-related Chemicals, Health & Crop Sciences, and Pharmaceuticals.

Founded in 1976, Sumitomo Chemical America, Sumitomo Chemical's regional headquarters for the Americas solves problems facing the global community by creating new value, building on technology innovations, and contributing to society with impact.

The Corporate Venturing & Innovation team located in Cambridge, MA., is actively studying the feasibility of projects and engaging and cultivating innovative tech startups and experienced entrepreneurial companies. CVI's priorities are to accelerate the development of next-generation core technologies, next-gen portfolio businesses, and sustainable businesses growth.

"We are focused on funding and cultivating technology entrepreneurs and businesses. Our goal is to create real-world value by accelerating the development of next-generation technologies, seeding early-stage tech companies, and creating new businesses for a sustainable society. We would love to hear from innovators that are addressing problems in healthcare, energy & the environment, food and agriculture, and ICT," says Scott Mitchell, President and CEO of Sumitomo Chemical America, INC.

SCAI and its parent Sumitomo Chemical are committed to promoting sustainability by acting under six basic principles, guided by the Sumitomo Spirit and the Groups Business Philosophy, namely contributing to the establishment of a sustainable society through achieving sustainable growth of our business.

The Sumitomo Chemical Group is contributing to the resolution of social issues through the creation of new value through the power of chemistry to build a sustainable society.
