iPatientCare announces National User conference (NUCON) 2019

Join iPatientCare NUCON 2019 on October 18th and 19th at Queen City Club, Cincinnati and supercharge your practice with the latest insights from iPatientCare.

Cincinnati, OH, August 01, 2019 - iPatientCare, a pioneer in cloud-based ambulatory EHR and revenue cycle management services, announced today of its annual gala event, National User Conference 2019, that will be held at Queen City Club, Cincinnati on October 18th and 19th.

This annual user conference involves iPatientCare users, channel partners, and business partners. While the event offers a great learning opportunity through presentations of current features and services and sneak preview of the future product releases, it serves as a platform for relaxation full of fun and excitement that engages entire iPatientCare community.

Every year through NUCON, iPatientCare offers a great learning opportunity to all its members to stay up-to-date on the future industry trends as well as latest and upcoming enhancements in iPatientCare product suite. The knowledge sharing continues with discussion on topics relating to Value based care, MACRA/MIPS, PCMH, Telehealth/Remote Patient Monitoring, specialty-focused implementations.

"Since we started NUCON, the event has evolved to meet the changing needs of our users, but its purpose has never wavered - to empower our users with the most actionable strategies for improving their patients' health and enhancing care by adopting to best clinical practices. This is even more important when healthcare reforms expect providers to transition to delivering value-based care. NUCON 2019 will focus on proposed enhancements in iPatientCare technology that deliver context-sensitive pro-active guidelines for practicing the value-based care. The City of Cincinnati with many major attractions and corporate headquarters is surrounded by picturesque foothills and the legendary skyline alongside the scenic Ohio River adding a beautiful backdrop to the Queen City. NUCON 2019 will provide a platform to meet the senior managers, experts, analysts and solution providers to exchange ideas about the key issues influencing and affecting the healthcare Industry" said **Udayan Mandavia**, Chief Growth Officer**,** iPatientCare/AssureCare.

About iPatientCare

iPatientCare is a full suite of innovative healthcare products and value-added services that help physician offices, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide in improving the health of their patients, enhancing patient care through care management/coordination/analytics, and reducing costs of care delivery.

The awards-winning EHR, integrated practice solutions and value-added services, such as, the revenue cycle enhancement and quality improvement consulting, provide everything you need to control your practice operations, increase revenues, and provide better patient care.

iPatientCare helps healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. The revenue cycle teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA.

The iPatientCare EHR 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the **ONC Certified Health IT Product List**.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
