

Improving MIPS 2019 Score through Quality and Cost Categories: iPatientCare announces a free webinar under its MACRA eLearning series

iPatientCare announces MACRA eLearning session focusing on tips for improving MIPS 2019 score.

Cincinnati, OH, August 07, 2019 - As part of its MACRA eLearning series, iPatientCare will host a free webinar session on Improving MIPS 2019 Composite Score through Quality and Cost Categories. The session is scheduled on August 22, 2019 from 1:00 PM EST to 2:00 PM EST.

Arnaz Bharucha from iPatientCare's Quality Improvement Team will lead the session and share some practical tips and tricks on how the quality and cost categories are scored and what can be done to improve and maximize the scoring in these categories. Interpreting the feedback report is an important step of the quality improvement consulting engagements, and hence, it will be discussed towards the end of the Webinar. The session will focus on the MIPS 2019 summary of changes for Cost and Quality category that will impact the 2019 MIPS Composite Score calculation.

Participants willing to register for the webinar can register at: <https://bit.ly/2Yv4WUP>

iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.

About iPatientCare

iPatientCare is a full suite of innovative healthcare products and value-added services that help physician offices, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide in improving the health of their patients, enhancing patient care through care management/coordination/analytics, and reducing costs of care delivery.

The awards-winning EHR, integrated practice solutions and value-added services, such as, the [revenue cycle enhancement](#) and quality improvement consulting, provide everything you need to control your practice operations, increase revenues, and provide better patient care.

iPatientCare helps healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. The revenue cycle teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA.

The iPatientCare EHR 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the [ONC Certified Health IT Product List](#).

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
