

# ConnectLED™

Wireless Lighting Management for AreaMax & OmniMax

# ConnectLED Bluetooth Controls

## Maintenance Saving Wireless Controls

ConnectLED is an easy-to-use application that communicates with both the AreaMax LED luminaire for street and area lighting and the OmniMax LED replacement lamp via Bluetooth Low Energy (BLE).

Configure and control your lights to enhance energy and maintenance efficiency.

### Licensing

ConnectLED is available with a Site license. Combine ENTERPRISE and BASIC user licenses under one customized Site license depending on your staff requirements. Easily manage multiple users through one convenient Admin Portal. A PROMO license is available when purchasing an AreaMax 4 x 4 or OmniMax 3 x 3 mini pilot.

Download ConnectLED from the Apple App Store, Google Play or through Evluma's ConnectLED portal (Windows) to your existing device to communicate with your Evluma lamps. ConnectLED connects to each AreaMax and OmniMax individually. Each Evluma lamp will flash to confirm your initial connection. A sequence of flashes indicates successful programming.

### ConnectLED & Photocontrol Failsafe™

Evluma's Photocontrol Failsafe operates independently of ConnectLED guaranteeing continuous dusk-to-dawn illumination regardless of photocontrol failure. Use ConnectLED to update lamp GPS location and monitor Photocontrol Failsafe status.

### Compatibility

*approved for but not limited to the following*

Apple iOS:  
iPhone 5 & higher, iPad Mini, iPad Air, iPad Pro, iOS 8 and higher.

Android Phones:  
Samsung S7, S8 & S9  
Android Tablets: Getac ZX70, Asus Zenpad & Galaxy Tab S2. OS 4.4(KitKat) or higher.

Windows:  
Windows 7, 8.1 or 10 laptop paired with a Bluetooth dongle (dongle provided with license).

Apple iPads & iPhone

Android Tablets & Phones

Windows Laptops

# Quick Function Features

Accessible from the Home screen

Perform non-destructive disconnect for termination of service.

## Connect/Disconnect

Easily manage the use of electricity from the ground during the transfer or disconnection of service and save on maintenance. Perfect for areas that only require seasonal lighting. Operates up to 100' from lamp. Line of sight recommended.

Track settings or performance changes. Easy-to-read alarms.

## Lamp Status

Quickly review a summary of lamp settings, access event history and monitor Photocontrol Failsafe™. Reads Faultcast™ maintenance status broadcasts from the AreaMax during the day - the hardest time to troubleshoot a light!

Resolve light trespass complaints with the touch of a button.

## Lamp Brightness

Need less light due to location (light trespass), or energy budget? Define brightness settings that also save energy. Perfect for light sensitive areas. Match the IDA approved AreaMax models with shields for the best Dark Sky Friendly results. Stock fewer SKUs knowing you can convert a 70W light to a 40W light instantly.

Have a service question that you'd like ConnectLED to answer. Our team is ready to innovate. Contact us for customization.

## Advanced Settings

Add clarity to asset management programs with customized lamp names, writable utility fields and GPS location details. Have a question? Easily share data via an Event Log with Evluma technical support.

Comply with changing lighting ordinances, efficiency targets or ecological impacts.

## Dimming

Get the right light for the right time. Maximize smart energy savings when setting custom dimming schedules for anytime between dusk and dawn. Three separate settings. Dim-to-Off programming available!

## Controlling Street & Area Lights has never been easier

- Connect/Disconnect
- Adjust Brightness
- Dimming Schedule
- Dim-to-Off
- Daytime troubleshooting
- Event log
