

iPatientCare to launch its cutting-edge EHR and Integrated Hospital Information Management System (HIMS) at GITEX 2019, from October 6-10, 2019 in Dubai

iPatientCare is all set to unveil its innovative product suite consisting of comprehensive EHR and integrated Hospital Information Management System (HIMS) for Clinics and Hospitals, at GITEX 2019, from October 6-10, 2019 in Dubai.

Cincinnati, OH, August 15, 2019 - iPatientCare, a pioneer in **cloud-based ambulatory EHR** and revenue cycle management services announced today its plan of launching EHR and integrated clinic/hospital information system localized for the GCC countries in particular and MENA region in general at GITEX 2019, which will be held at Dubai World Trade Center from October 6-10, 2019.

iPatientCare is known for its pioneering contribution to evolving an easy-to-use, mobile-friendly electronic health record, ePrescribing, and dashboarding solution, designed by physicians for the physicians. Having worked with the US Army, NASA Space Medicine, many of the leading US hospital/health systems, and won numerous awards for its innovations and early adoption of its EHR and integrated practice solutions, iPatientCare is glad to announce its plans to serve the healthcare providers, clinics and hospitals/health systems globally. iPatientCare views the Middle Eastern market space as a natural and strategic expansion of its successful business operations in the US.

GITEX 2019 will host 26 technology sectors on a common platform, converging sectors and industries that impact human lives 365 days a year. GITEX is one of the world's largest technology exhibitions. It allows exhibitors to interact and communicate with over 143,000 Information Technology professionals representing 97 countries around the world. In total, GITEX 2019 will have around 4800 exhibitors from 130 countries bringing their latest innovative solutions in the industry. iPatientCare is very excited to be part of the **GITEX 2019 exhibition** and showcase its complete healthcare application suite incorporating innovative advances in IoT, AI/ML, analytics etc.

"In nut-shell, iPatientCare helps healthcare providers deliver enhanced care to their patients, improve population health, and reduce costs by eliminating redundant investigations and procedures through its micro exchange and supply chain management solutions designed for clinics and hospitals connected through a cloud-based application framework. We have already localized our solution for the region and validated through pilots/proof-of-concept prototypes for leading enterprises, and hence, look forward to networking with chief information officers, medical directors, and influence leaders attending GITEX for spreading our innovative and customized solutions within the region.", said **Udayan Mandavia**, Chief Growth Officer, iPatientCare/AssureCare.

Book an appointment and mark your calendar for meeting with iPatientCare executives at GITEX Exhibit Hall 8, Stand H8-D12 at Dubai World Trade Centre from 6th to 10th October 2019.
