

Practice Insight, now a part of eSolutions is thrilled to exhibit once again at iPatientCare National User Conference (NUCON) 2019, as a Gold Level Sponsor

iPatientCare is proud to announce the participation of Practice Insight as a Gold Level Sponsor and Exhibitor at National User Conference (NUCON) 2019 in Cincinnati on October 18 - 19, 2019

Cincinnati, OH, September 18, 2019 - iPatientCare, a pioneer in cloud-based ambulatory EHR, revenue cycle management services, **integrated practice management**, and patient engagement solutions, proudly announces the participation of Practice Insight as a Gold Level Sponsor at National User Conference (NUCON) 2019. The annual conference features informative sessions about upcoming enhancements, user's wish-lists based discussion sessions, hands-on demos with iPatientCare experts and exhibition showcasing the leading-edge technologies.

Practice Insight, now a part of eSolutions brings the power of EDI technologies to hundreds of PM/EHR software systems and has partnered with many of the best-known healthcare IT vendors in North America. It provides secure, robust, fast and integrated EDI solutions through its industry-leading software – EDInsight. It has more than 60,000 users that rely on the power of its technology that does more than just connecting to numerous commercial and government payers to submit claims.

This year's annual user conference would focus on proposed enhancements in iPatientCare technology that deliver context-sensitive pro-active guidelines for practicing value-based care. The knowledge sharing will be continued with a discussion on topics relating to value-based care, MACRA/MIPS, PCMH, Telehealth/Remote Patient Monitoring, and specialty-focused implementations.

"It is a pleasure to have Practice Insight at the iPatientCare's annual event – National User Conference (NUCON) 2019. We are looking forward to knowing more about Practice Insight's new features that empowers iPatientCare end users and thousands of other healthcare professionals to manage EDI in ways no one else can. It's flagship product EDInsight®, offers flexibility and features simply not found elsewhere." said **Rajesh Mandaviya, Coordinator, NUCON 2019 Organizing Committee.**

About iPatientCare

iPatientCare is a full suite of innovative healthcare products and value-added services that help physician offices, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide in improving the health of their patients, enhancing patient care through care management/coordination/analytics, and reducing costs of care delivery.

The awards-winning EHR, integrated practice solutions and value-added services, such as, the revenue cycle enhancement and quality improvement consulting, provide everything you need to control your practice operations, increase revenues, and provide better patient care.

iPatientCare helps healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. The revenue cycle teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA.

The iPatientCare EHR 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the ONC Certified Health IT Product List.

As part of its [MACRA-ready solutions](#), iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
