iPatientCare to unveil its revolutionary mobile and internet based 'iPatientCare Remote Patient Monitoring (RPM)' System at GITEX Technology Week 2019

iPatientCare will showcase its complete range of innovative healthcare products and services at Stand H8 - D12, Dubai World Trade Centre from October 6 - 10, 2019.

Cincinnati, OH, September 30, 2019 - iPatientCare, a pioneer in **cloud-based ambulatory EHR**, revenue cycle management services, integrated practice management, and patient engagement solutions announced today its plan of unveiling its mobile and internet based **'iPatientCare Remote Patient Monitoring'** system at GITEX Technology Week which will be held from October 6 to 10, 2019, at the Dubai World Trade Centre. iPatientCare is all set to leverage the platform for showcasing its innovative healthcare products and services.

Another focal point of the company's participation at GITEX will be to exchange ideas with various key decision makers to launch innovative projects and presenting them to the public, in addition to presenting new phases and developments of **iPatientCare products**, which are characterized by innovation, as they contribute towards transformation of healthcare through technology. Visitors will also be able to get hands-on with the firm's latest 'Remote Patient Monitoring' through live demos at the event.

"GITEX offers us a great opportunity to demonstrate why every health organization needs disruptive technology like 'iPatientCare Remote Patient Monitoring (RPM)' to keep up with global healthcare landscape and improve patient-centric care. iPatientCare has evolved this RPM System using mobile and internet technologies to facilitates anytime, anywhere video calling between patients and their care providers, thus making healthcare more accessible and enabling doctors to better monitor how patients respond. We are more than delighted to exhibit our innovative technologies at GITEX 2019, which is expected to revolutionize the healthcare industry, saving money and saving lives at the same time." said **Kedar Mehta, Chief Technology Officer, iPatientCare/AssureCare**

In addition to the daily presentations and product demonstrations, senior global executives and healthcare experts from **iPatientCare will be available at Stand H8 - D12**, to speak to visitors, customers and channel partners and share their global successes with them.

To schedule a meeting with iPatientCare at GITEX 2019, visit **https://ipatientcare.com/gitex-2019** or drop an email at **sales@ipatientcare.com**

About iPatientCare

iPatientCare is a full suite of innovative healthcare products and value-added services that help physician offices, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide in improving the

health of their patients, enhancing patient care through care management/coordination/analytics, and reducing costs of care delivery.

The awards-winning EHR, integrated practice solutions and value-added services, such as, the **revenue cycle enhancement** and quality improvement consulting, provide everything you need to control your practice operations, increase revenues, and provide better patient care.

iPatientCare helps healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. The revenue cycle teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA.

The iPatientCare EHR - version 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the **ONC Certified Health IT Product List**.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
