

## THE KOKOMO24/7<sup>®</sup> PATH **TO STUDENT SAFETY**

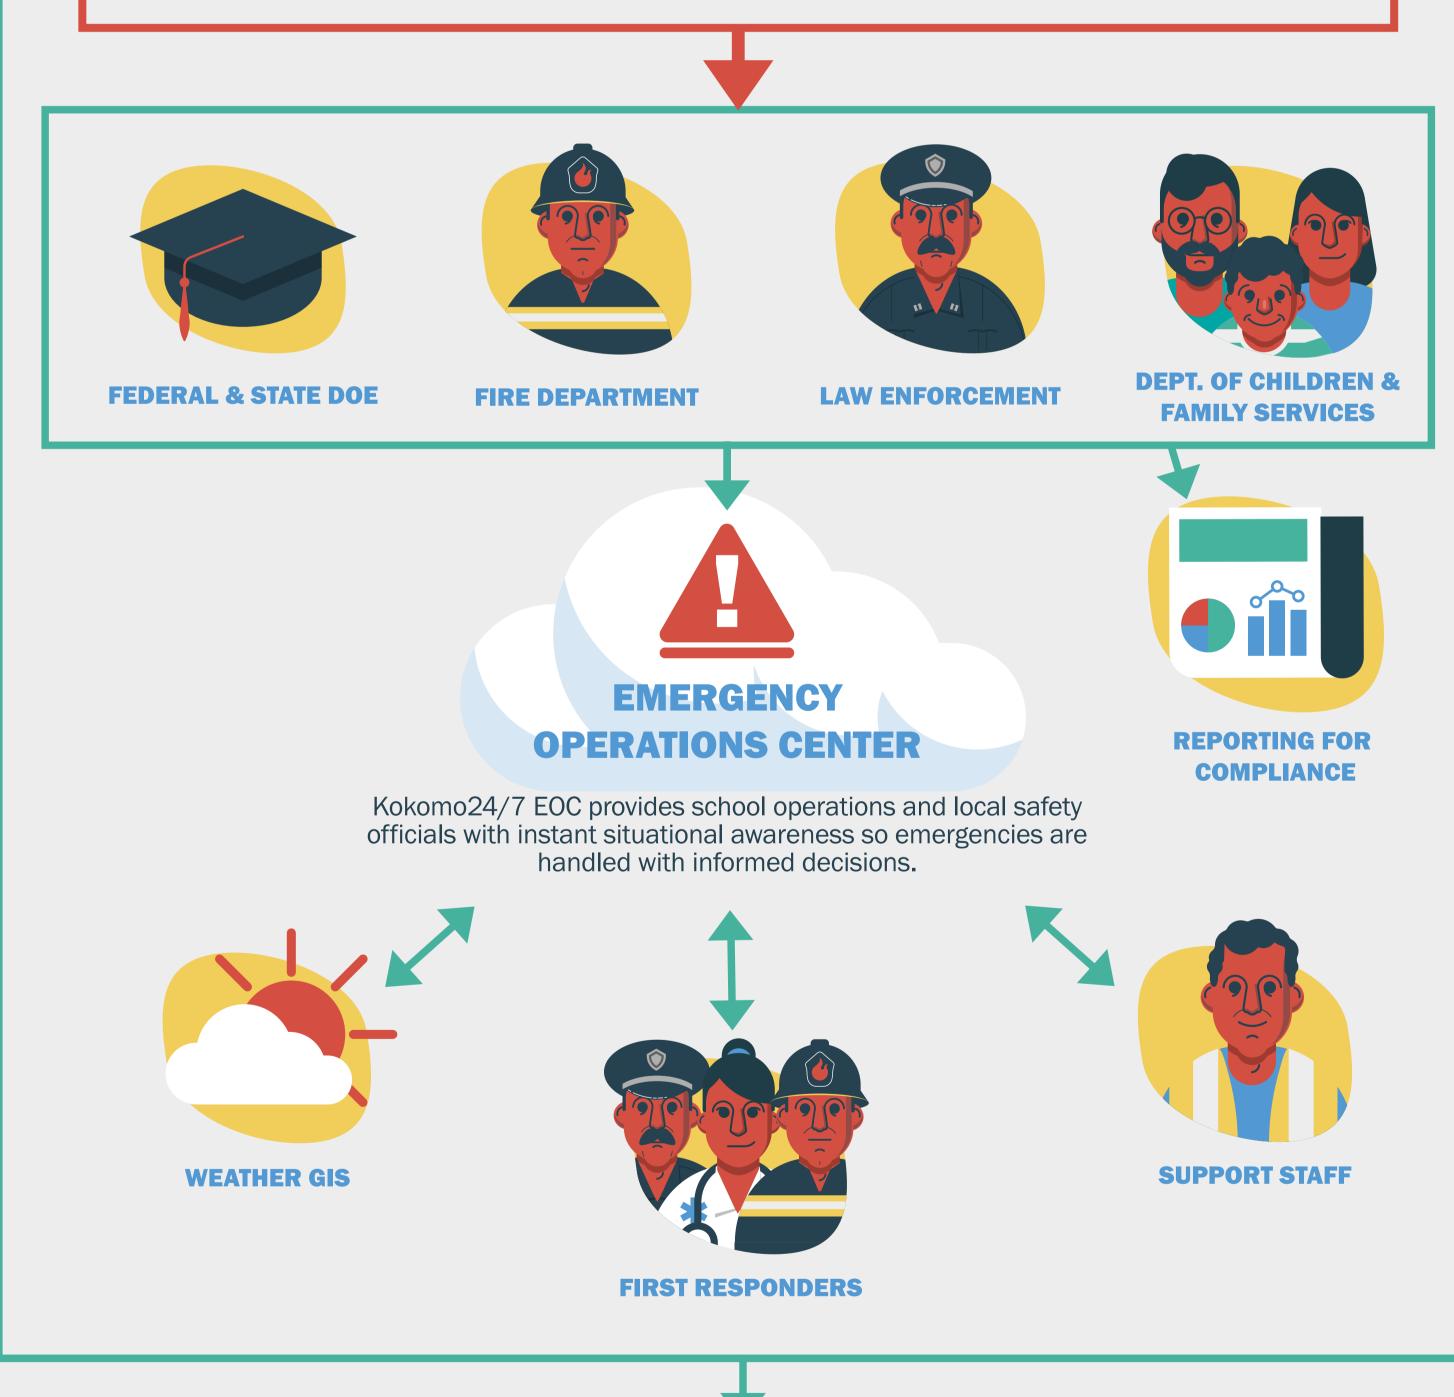

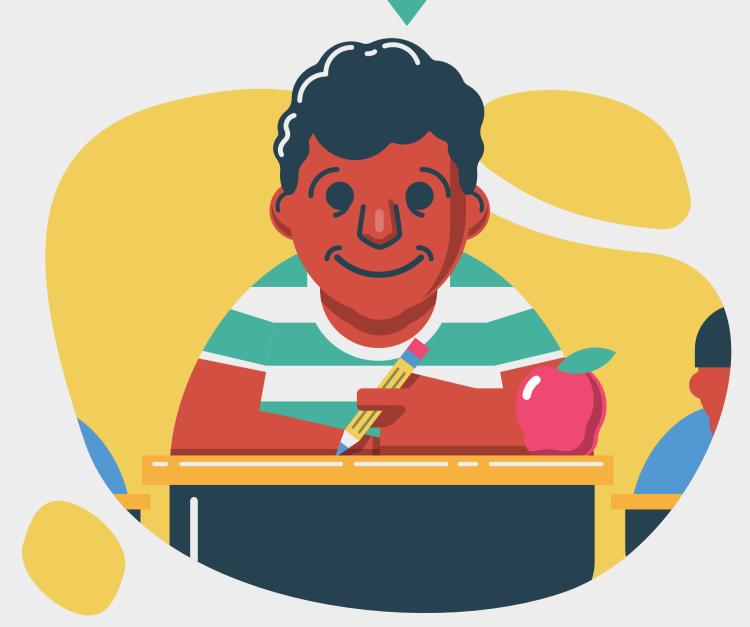

LAW ENFORCEMENT

Kokomo24/7 IMS learns from past incidents and analyzes data to predict outcomes and provide intervention before incidents happen. IMS provides a proactive approach for schools and safety departments to prevent, respond to, and recover from incidents.

The Kokomo24/7 approach to student safety centers around proactive intervention to prevent unsafe incidents. At the core of our student safety solution is an Artificial Intelligence Engine that leverages years of incident data from hundreds of thousands of student incidents. This A.I. Engine reveals predictive indicators in real time that help administrators and school resource officers visualize potential incidents that disrupt learning in K-12. Ultimately, Kokomo24/7 delivers student safety through proactive intervention, creating more time for teachers to focus on education.

A.I. ENGINE
