

## iPatientCare successfully showcased its innovative healthcare solutions at GITEX Technology Week 2019

**iPatientCare joined the extremely popular GITEX held recently at the Dubai World Trade Centre, taking advantage of one of the biggest tech events in Dubai**

**Cincinnati, OH, October 11, 2019** - iPatientCare, a pioneer in **cloud-based ambulatory EHR**, revenue cycle management services, integrated practice management, and patient engagement solutions successfully showcased their best-in-class healthcare IT solutions and technical capabilities associated with evolving healthcare curve, attracting high footfall from different professional backgrounds at GITEX 2019, Dubai.

The biggest technology show in the Middle East, **GITEX Technology Week**, took place for the 39th time this year at the Dubai World Trade Center from October 6 - 10, 2019. The event was a major success and was attended by over 1 lakh attendees and more than 4500 exhibitors from around 140 countries.

iPatientCare's innovative and revolutionary healthcare solutions were in the spotlight during GITEX, one of which was '**iPatientCare Remote Patient Monitoring**' also known as iPatientCare RPM. The solution enables video calling between patients and their care providers anywhere, anytime with the help of mobile and internet technologies, thus enabling patients to stay engaged. Products shown also included iPatientCare electronic health record, integrated clinic and hospital management system, patient engagement and health information exchange designed for improving health of the patient population, enhancing care, and reducing costs.

"GITEX 2019 served as an opportunity for us to showcase iPatientCare's complete healthcare application suite incorporating innovative advances in IoT, AI/ML, analytics etc. Our valuable engagement and interaction with regional and international visitors allowed us to explain fully how our solutions work, their benefits, and their key roles in enhancing healthcare outcomes. Our presentation in GITEX yielded highly beneficial results for our organization and effectively showcased our efforts to improve patient experience and enhance population health at the local and regional levels." said **Udayan Mandavia, Chief Growth Officer, iPatientCare/AssureCare**.

A big thanks to GITEX techno week for giving us an opportunity to represent our latest health IT expertise. We look forward to receiving any enquiries you may have associated with **iPatientCare products or services**.

### **About iPatientCare**

iPatientCare is a full suite of innovative healthcare products and value-added services that help physician offices, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide in improving the health of their patients, enhancing patient care through care management/coordination/analytics, and reducing costs of care delivery.

The awards-winning EHR, integrated practice solutions and value-added services, such as, the **revenue cycle enhancement** and quality improvement consulting, provide everything you need to control your practice operations, increase revenues, and provide better patient care.

iPatientCare helps healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. The revenue cycle teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA.

The iPatientCare EHR - version 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the **ONC Certified Health IT Product List**.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
