Component Control Announces Aeroxchange AeroRepair Integration

An integration that offers MRO Service Providers, Part Sellers and their customers simplified order management

LONDON, UK - MRO EUROPE (booth 1425) – October 16, 2019 – <u>Component Control</u> announced today the expanded integration between Quantum Control and <u>Aeroxchange's</u> AeroRepair platform. Designed to provide effortless data sharing between MRO Service Providers, Part Sellers and their customers, the Integration between Quantum Control and AeroRepair simplifies communication, increases accuracy, and reduces manual data entry.

Aeroxchange is the only electronic business network that supports all MRO business processes within the aviation industry for buyers and sellers. Integration with Aeroxchange's AeroRepair allows Repair Facilities to easily accept and process customer orders, send acknowledgements & pricing estimates, update customers with estimated completion dates, and finally send shipping notifications & billings all from within Quantum.

"We are thrilled with the opportunity to further integrate Aeroxchange services with Quantum-ERP," said Todd Lewis, President of Component Control. "A number of our MRO customers have been asking for a seamless integration between our Aviation Business Software and their airline customers. Aeroxchange's AeroRepair product delivers that and more."

"We are excited the bridge between AeroRepair and Quantum-ERP is available and ready for customers to activate," said Albert Koszarek, President and CEO of Aeroxchange. "By purchasing the AeroRepair bridge, Quantum-ERP customers will lower costs and delays associated with information errors and increase business efficiency with full visibility to the entire repair order lifecycle."

About Component Control

<u>Component Control</u>, a <u>CAMP Systems Company</u>, is a leading developer and provider of MRO and Logistics Software solutions for the aviation industry. Supporting the core business of over 1,600 companies in over 60 countries, Quantum Control Software is the undisputed leader in providing advanced aviation management software and services to original equipment manufacturers, aftermarket service divisions, component repair and overhaul companies, aircraft completion centers, MRO facilities and part distribution/redistribution companies.

About Aeroxchange

Founded by 13 major global airlines in July 2000, <u>Aeroxchange</u> is a privately owned company providing software solutions that maximize efficiency across the aviation supply chain. Aeroxchange's tailored solutions offer a seamless e-commerce experience between aerospace companies and their trading partners.
