## Neurovision Medical Selects SMB Cloud Enterprise Disruptor Cetec ERP of Austin, TX

**TWITTER PITCH:** “Ventura, CA’s Neurovision Medical has implemented new SMB cloud suite @CetecERP to scale their biomed manufacturing operation with the future in mind!”

**SUMMARY:** “In October 2019, Cetec ERP became the backbone of a true industry standard for surgical technology -- Neurovision Medical Products. With the patient and future in mind, Neurovision Medical Products strives to be the leading-edge in every way possible, including their ERP system. Taking the next step, they chose Cetec ERP a cloud native, low-cost ERP as a Service to be their platform for growth.”

**AUSTIN (31 October 2019)** - Web-based ERP provider [Cetec ERP](#) has partnered with the industry standard of surgical technology manufacturing, [Neurovision Medical Products](#), to achieve a total web-based solution for inventory control, traceability, accounting and quality management. Cetec ERP is comprehensive, simple to use and powerfully designed SaaS platform aiming at industry disruption by giving ERP access at low-cost to manufacturers across the world.

*Cloud ERP Implementation of Cetec ERP At Ventura California Biotechnology Manufacturer*

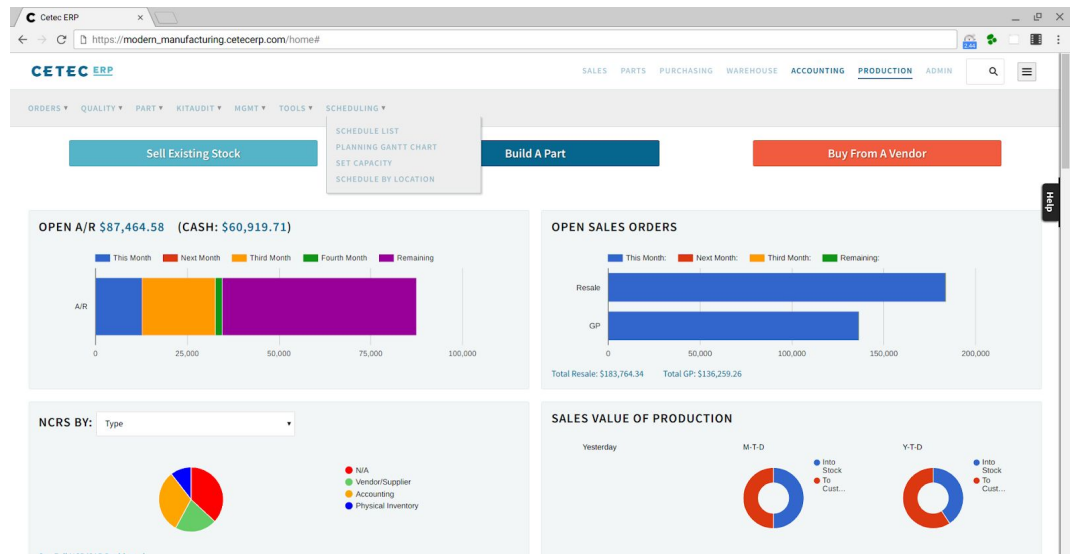

Cetec ERP is excited to partner with Neurovision Medical Products; we believe our product works exceptionally well in the medical device and surgical technology industry. We understand the challenges of traceability and auditing that Neurovision Medical Products faces every day and have designed an ERP system specifically built for these challenges.

**Quote from Neurovision Medical Products**

“We are quite satisfied with our decision to choose a cloud based full suite ERP. We recognized the innovation in Cetec ERP and haven’t looked back since. We are growing rapidly, and we require an ERP platform that has seen rapid growth and has expertise in scaling data management. The reality is, now, we have real time access to each of our departments, so when we need to make a business decision, we can find almost every change within the company, instantly. This industry requires a very high level of detail, and we are happy to say Cetec ERP is up for the challenge. We couldn’t be more excited!” said Alan Galvan of Neurovision Medical Products.

## ABOUT CETEC ERP:

Cetec ERP is disrupting a stagnant, high dollar industry that has resisted change for decades. Since 2015, and without any major marketing initiatives or venture capital funding, Cetec ERP has independently migrated more than 150 companies off legacy technology platforms like Oracle and NetSuite, saving companies hundreds of thousands of dollars, onto a new generation of lower cost ERP technology.

## ABOUT NEUROVISION MEDICAL PRODUCTS TECHNOLOGIES:

Founded in 1973 on the principles of surgery and electrical engineering, we continue to pioneer intraoperative nerve monitoring technologies. Neurovision Medical Products develops and markets intraoperative monitoring technologies for the identification and preservation of motor nerves. Their mission is to provide leading-edge neuromonitoring surgical tools that empower clinicians to improve patient outcomes. Neurovision Medical Products is located in Ventura, California, USA.
