

With the zero programming **Leaflet Contract Automation and Management Platform** you can accelerate the creation of your contracts and use built-in Contract Management and CRM integration to manage the complete deal cycle.

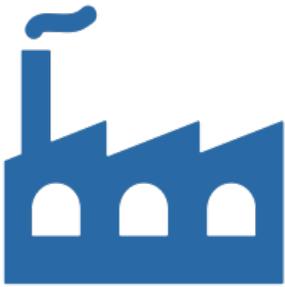

Use Leaflet’s secure Contract Portal to generate completed documents with configurable workflows and approval processes that allow legal to review, if needed, at each step of the deal.

“Using the Leaflet platform, creating and publishing templates into our contract portal for business users is painless. In addition, through Leaflet’s integration with salesforce.com CRM, relevant data is pre-populated, making creation of agreements even easier,”
-Mr. Shannon Copeland, CEO N3 Corporation

Leaflet's configurable workflows allow you to quickly create, review, and approve contracts.

Increase Efficiency

- Leaflets create self-service Contract Portals

- Built-in CRM integration provides the right information at the right time

- Signature page compilation and e-Signature integration

- Automated Workflows take documents from start to amendment

- Portals reduce the friction between business and legal by providing a fast lane to deal completion

Improve Compliance

- Designed with you in mind, to make your work easier

- Giving you the control you need over your entire process

- Automatically structure document drafting with active elements

- Securely share document tasks with clients and colleagues

- Permission-based questionnaires & generation let you control the process at each stage

Manage Obligations

- Put an end to the email bucket brigade of disconnected negotiation

- Track and manage your rights and obligations right from the templates...

- Analyze and edit counterparty docs with Leaflet Playbooks

- Robust CLM features driven by captured meta-data

- Generate alerts, reports, audits, & analytics
