

## ConnectiveRx, Upland Interfax and Scriptel Corporation successfully sponsored and exhibited at iPatientCare NUCON 2019, Cincinnati

**iPatientCare National User Conference 2019 concluded with awesome product demonstrations and wonderful insights from the participants. The conference, which was held in Cincinnati, Ohio, was the 10th such event held by iPatientCare since the company started its annual user conference series in 2010.**

**Cincinnati, OH, November 11, 2019:** iPatientCare, a pioneer in **cloud-based EHR**, Revenue Cycle Management services, integrated Practice Management and Patient Engagement solutions, welcomed ConnectiveRX as a Silver Sponsor, and Upland Interfax and Scriptel Corporation as the Bronze Sponsor at National User Conference (NUCON) 2019, held at Cincinnati, on October 18 - 19. The annual conference featured informative sessions about upcoming enhancements, user's wish-lists based discussion sessions, hands-on demos with iPatientCare experts and exhibition showcased the leading-edge technologies.

As an integrated partner, **ConnectiveRx** provides clinical messaging support to iPatientCare users and helps them deliver clinical messages to prescribers seamlessly and in real-time within their EHR application based on actions they take in the workflow.

**Upland Interfax's** cloud-based faxing capabilities embedded right into iPatientCare's electronic medical record system provides the most secure methods of healthcare faxing to the end-users. Their cutting-edge desktop faxing services enables doctors and medical staff to send and receive faxes easily and cost-effectively.

**Scriptel Corporation's** ScripTouch Signature Pads allow direct electronic capture of authentic handwritten signatures onto multiple consent forms at Check-In and within Patient Chart modules in the iPatientCare application. It lets users save time and cost, speed up patient interactions and reduces errors by going paperless with no signature pads related software to install or maintain.

During this **two-day event**, iPatientCare channel partners, certified professionals, business partners, end-users and healthcare experts from iPatientCare gathered to reflect on their evolution in the healthcare field, to celebrate accomplishments, to welcome new practitioners to their networks, and to investigate what new directions the next ten years may bring.

"NUCON 2019 was the first conference I attended with iPatientCare. What I thought was really special is seeing how iPatientCare worked with their customers. Their customers are #1 and family to them. They spent a lot of time listening to what they are looking for and what will help in their day to day routines. As a partner, what is most important to me is my customers and how I can help make their day a bit

easier by allowing them to focus on patients and not on other things and that is what is important to iPatientCare too” said **Randa Gallagher, Customer Relation and ISV Manager, Scriptel Corporation.**

#### **About iPatientCare**

iPatientCare is a full suite of innovative healthcare products and value-added services that help physician offices, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide in improving the health of their patients, enhancing patient care through care management/coordination/analytics, and reducing costs of care delivery.

The awards-winning EHR, integrated practice solutions and value-added services, such as, the **revenue cycle enhancement** and quality improvement consulting, provide everything you need to control your practice operations, increase revenues, and provide better patient care.

The iPatientCare EHR - version 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the **ONC Certified Health IT Product List.**

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
