

Certemy's instantly configurable certification management software is for professional certification boards who wish to automate a predominantly manual certification program or replace a custom certification management solution that no longer meets their needs.

Benefits for Certification Boards

Do more with less. Drive efficiency through automation. Build trust through transparency. Add or change any aspect of your certification programs in minutes without IT staff or custom programming.

Let Certemy proactively guide professionals through your certification process, step by step, so you can spend less time answering the same questions for each candidate, and more time analyzing data and managing exceptions.

Efficiency | Put your certification processes on autopilot. Centralize data and documents. Integrate systems. Improve data accuracy. Reduce paper handling. Minimize repetitive phone calls and emails.

Transparency | Build transparency and trust. Establish a common system of record for staff and certificants. Identify problems and trends using dashboards, standard reports, and our custom report builder.

Agility | Change and expand your certification programs as your business needs evolve. Add or change any aspect of your certification process, including forms, fees, and CE requirements, in minutes without programming.

Benefits for Certificants

Make it faster and easier for your certificants to acquire and maintain certification.

Make Certification Simple | Help certificants manage their certifications, track continuing education, and complete audits faster and easier than ever.

Stay On Top Of Renewals | Let certificants get automated alerts when certifications are expiring, or when you approve or reject their submissions.

Manage Everything In One Place | Allow certificants to manage documents, CE transcripts, and certificates in a digital wallet, and share them with auditors or employers in seconds.

Why Certemy?

- ✓ **First Instantly Configurable Certification Management System** | Automate complex certification workflows in hours and change them in minutes. Keep your certification software current with your business needs without IT staff or custom programming.
- ✓ **Most Complete** | Put your entire certification program on auto-pilot. Automate everything from applicant processing to board reviews, audits, and certificate production.
- ✓ **Most Affordable** | Our all-in-one pricing starts at \$5,000 per year for smaller certification boards. We do not charge extra for implementation, data migration, software upgrades, and document storage. You won't pay for system changes because you can do them yourself.
- ✓ **Fastest to Implement and Change** | Implement Certemy in as little as 30 days with no loss of data during the migration. Once live, instant configuration lets you change anything in minutes without IT help.
- ✓ **Easiest to Learn and Use** | Your certificants can use our modern, mobile-friendly user interface on any device. Your board staff will love Certemy's simple screens for managing, reviewing, auditing and analyzing your certification programs.
- ✓ **Easiest to Integrate** | Integrate with your existing website using custom enrollment links and embeddable public registries. Integrate with other business systems, including LMS, AMS and HRIS systems.
- ✓ **Proven Return on Investment** | Certemy customers have cut admin costs by 50% by dramatically reducing paper handling, phone calls and emails. Customers also enjoy higher completion rates for new applications, and higher retention rates for renewing licenses.
- ✓ **Most Secure** | Store your data in the cloud with the strictest security and encryption available.
