iPatientCare Supports National Influenza Vaccination Week – December 1 through 7, 2019

iPatientCare abides by 'Fight Flu' – the goal of National Influenza Vaccination Week and shows collective actions needed for promoting this important information across the community.

Cincinnati, OH, December 2, 2019: iPatientCare, a pioneer in **cloud-based EHR**, Revenue Cycle Management services, integrated Practice Management, and Patient Engagement solutions, announces its participation and support for the National Influenza Vaccination Week from December 1 – 7, 2019. The National Influenza Vaccination Week (NIVW) is a national awareness week sponsored by the Centers for Disease Control and Prevention (CDC), focused on highlighting the importance of influenza vaccination.

The National Influenza Vaccination Week serves as a reminder that even though the holiday season has arrived, it's not too late to get a flu vaccine. This week is an opportunity to encourage colleagues, patrons and community members to protect themselves against flu and prevent influenza-associated hospitalizations.

"iPatientCare proudly participates in this national awareness week to help in promoting the ongoing flu vaccine efforts by Centers for Disease Control and Prevention (CDC) to educate about the dangers of influenza and the benefits of vaccination.We support and participate in National Influenza Vaccination Week to strengthen our commitment towards improving healthcare outcomes using health information technology." said **Shahab Shaikh, Implementation Program Manager, iPatientCare/AssureCare**.

iPatientCare is supporting NIVW by:

- Sharing information with providers and healthcare professionals through e-mail

- **Posting social media messages** on the importance of flu vaccination

- **Publishing educational articles** on our website, providing comprehensive information on flu vaccination

For more information about the seriousness of flu and the benefits of flu vaccination, talk to your doctor or other health care professional, or call CDC at 1-800-CDC-INFO.

About iPatientCare

iPatientCare is a full suite of innovative healthcare products and value-added services that help physician offices, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide in improving the health of their patients, enhancing patient care through care management/coordination/analytics, and reducing costs of care delivery.

The awards-winning EHR, integrated practice solutions and value-added services, such as, the **revenue cycle enhancement** and quality improvement consulting, provide everything you need to control your practice operations, increase revenues, and provide better patient care.

The iPatientCare EHR - version 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the **ONC Certified Health IT Product List**.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
