RECLAMERE HIRES RANDY SCIARRILLO AS DIRECTOR OF CYBERSECURITY SERVICES AND OPERATIONS

Tyrone, PA -- Reclamere is pleased to announce its recent hire of Randy Sciarrillo, who has joined the team as Director of Cyber Security Services and Operations. Within these roles, Sciarrillo will use his 20+ years of experience in Information Technology to help steer the future of Reclamere.

"I meshed with the history of success, the passion of the leadership team, and the ability to make an impact in a growing organization," Sciarrillo said. "The need for data security services continues to grow at an unprecedented rate. I believe that organizations like Reclamere will lead the future with a combination of services and focused skill sets."

CEO Angie Singer Keating adds, "In our almost 19-year history, Reclamere has prided itself on being ahead of the curve on all things related to security and risk management. With the addition of Randy to the team, we now have advanced engineering leadership and expertise that allows us to help more clients with more complex security challenges."

Mr. Sciarrillo comes to Reclamere with over 20 years' experience in information technology.

He was the former Director of IT Operations and Service Delivery at viLogics. Randy also served as the account executive for the National American Red Cross, overseeing their critical infrastructure, systems, and servers hosted at the viLogics-owned primary data center and disaster recovery location. Before that, he worked for UPMC Altoona as the Manager of the Information Services Division.

After receiving IT Training in the US Army, Randy later went on to graduate from a technical school. He holds certifications in VMware, Novell Engineering, and various network technologies.
