cannabiz media

YOUR VERIFIED SOURCE

Easily Verify License Status

Tap into an API that enables you to quickly verify the legal status of state-licensed cannabis and hemp businesses to ensure you maintain compliance. You give us the state ID, we return the status and details about the license.

$5,000/year add-on service

Available as an add-on service to the Business, Business+, and Enterprise level subscriptions.

"We use the Verification API to automate the verification steps we use when setting up new buyers and sellers on our platform. And it was very easy to implement! The API is simple and straightforward, and we were able to build a successful integration in just a few days."
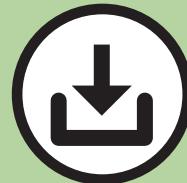

– Andrew Graf
Sr. Product Manager
Leaf Trade

The Verification API allows you to look up license details without having to log into the License Database:

Input state ID numbers

Return verified data that includes the state of issue, legal status, tradename, and license description

Lookup results in bulk to enhance your workflow
