

## **Introducing Causeforgiving The First Philanthropic Social Media Platform, Changing The World One Song, Book And Movie at a Time While Giving Back To Cause**

*New Online Retailer Puts a Charitable Twist on the Multi-Billion Dollar Entertainment Industry and Allowing you to finally have a way to monetize that social media following it took you years to build.*

HOUSTON and LOS ANGELES ([PRWEB](#)) December 27, 2019 -- A new concept is taking the entertainment industry by storm, using social media and profit sharing like never before. Causeforgiving.org, at Its simplest level, is an online social media and retail platform that will allow you to monetize your following, using music, movies, video games and ebooks. Terrell Samuels and Jamie Wright are the visionaries, behind this Social Media Platform. They found a way for consumers to support important causes and keep every charity funded on a monthly basis without using new dollars. These dollars are already being spent on your entertainment choices monthly with their competitors like Netflix, Spotify, i-Tunes and Amazon. Terrell Samuels said, "CFG will donate a significant percentage of each purchase back to consumer, charity, schools and churches across the World."

CFG is changing the world by donating 20 percent of every dollar spent to charity. 200+ Billion Dollars are spent annually on music, movies, video games, and E-Books. Terrell Samuels said, they are initially launching in the first quarter of 2020 with music only and will be adding the other verticals later, so stay tuned.

Seven years ago Jamie Wright and Terrell Samuels, who currently lives in Houston, Texas, had the same vision of giving back and having a philanthropic platform. Terrell Samuels was living in Los Angeles at the time and recently relocated to Houston to help his parents retire. Destiny happened when these two met through a mutual colleague. They formed this amazing company Causeforgiving.org.

Just because CFG is giving back doesn't mean consumers will be shelling out more money. Prices are the same if not lower than their competitors, like i-Tunes and Spotify, while offering the same content plus more. This is because Independent Artists will be able to distribute their content through their platform as well. In addition, celebrities will not only make money when a fan downloads their music, but they will also make money when that same fan downloads another artist music. So a rapper like Snoop Dog can get paid when his fan downloads Taylor Swift music and vise versa.

CFG is the first of its kind, and an inspirational social media platform that everyone will enjoy, because it is invite only, free to join, and you get paid. Terrell Samuels and Jamie Wright feel having this type of platform will show people around the world how to give and be a blessing to others. Join the Cause for Giving movement and be the first to join and invite others.

### **ABOUT CAUSE FOR GIVING**

CFG is a Philanthropic Social Media Platform offering the latest music, movies, games and ebooks. Unlike it's Competitors, 20% of the money spent goes right back into the community, funding charities, churches, schools, and foundations Worldwide, while creating a revenue stream for consumers that they wouldn't have prior to CFG Launching their platform. They send out Visa Debit cards to each user and will upload your cash on your

card monthly. Everyone will have a CFG Wallet and they will be able to see what funds they have in their account once you are a member. Plus you can earn cash for inviting your network or followers on other platforms like Facebook, Twitter, Snapchat and Instagram.

Now you can feel good about your next movie, song, e-book or game purchase. You can also finally monetize that network it took you years to build on these other social media platforms. Join Causeforgiving.org and start making a difference for 2020.
