

Special Learning, Inc. Announces the Launch of Sister Company, ABA Business Growth, to Help Address the Business Needs of Organizations Serving Individuals with Autism and Other Special Needs

Share Article

Special Learning, Inc., the leading global provider of comprehensive digital autism solutions including training, educational materials and virtual consulting, today announced the official launch of ABA Business Growth. ABA Business Growth specializes in providing the very best in talent management, training development and business consulting for ABA organizations and their leaders.

PALO ALTO, CALIF. (PRWEB) JANUARY 16, 2020

Special Learning, Inc. is the leading global provider of Autism and Applied Behavior Analysis (ABA) solutions for families, practitioners and ABA organizations. Special Learning Inc. has officially launched ABA Business Growth to address the workplace needs of ABA businesses worldwide. The company specializes in the areas of recruitment/talent management, training development and business consulting. It was formed in response to the increasing demands and challenges ABA organizations face when searching for quality team members, retaining and developing staff, and addressing a wide variety of operational business needs. You may view and access detailed information about all of their services at www.ABA-BusinessGrowth.com.

Innovative and Elite Recruiting and Talent Management Services

ABA Business Growth recruiting and talent management services focus on helping organizations find the very best BCBA® and RBT® candidates. Finding even one BCBA® and RBT® for an open position in today's marketplace is difficult, and with the field growing at an exponential rate, the need for multiple clinicians and technicians continues to increase. ABA Business Growth utilizes an innovative Hybrid Recruiting Model, which provides a streamlined pipeline of multiple qualified candidates for organizations. The ABA Business Growth recruiting methodology is an active and multi-level approach that gives them the ability to find skilled candidates that match the unique needs and business culture of an organization. ABA Business Growth works with organizations from the very beginning of the search process, and they go well beyond basic technical and clinical skill requirements to provide a thoughtful match for each organization and candidate they serve.

Training Development Programs and Packages for Your Entire Team

ABA Business Growth leverages its partnership with Special Learning Inc., a leading global provider of Autism and ABA training solutions, to offer organizations the very best in education and professional development. Their comprehensive online educational programs develop skills for front-line and clinical team members. The programs exceed the requirements defined by the Behavior Analyst Certification Board (BACB) and they offer continuing education credits staff may use to earn and maintain specific licenses and certifications. The programs are an excellent way to help retain and meet the needs of an entire organization team. In addition, ABA Business Growth training programs offer businesses great professional development opportunities at excellent group rates.

ABA Business Growth also offers much needed virtual supervision consultations for RBT® team members so they may maintain their credential.

Business Consulting Services to Optimize all Non-Clinical Areas of Your Organization

ABA Business Growth's consulting services are designed to help ABA organizations review and analyze all aspects of their business and to identify business opportunities moving forward. ABA Business Growth's experienced team of consultants specializes in working with ABA organizations to develop and implement a detailed action plan across all functional business areas.
