**Peopletrail® announces the launch of its  
new consumer background screening portal**

---

DRAPER, January 08, 2020 — Peopletrail LLC, the leading consumer reporting agency providing advanced background checks and pre-employment screening, today announced the launch of their new exclusive consumer background screening website, [Consumer Credentials](#). The Consumer Website will be providing personal background checks to candidates looking to stay on top of their information.

According to an [FBI Source](#), background checks performed by the National Instant Criminal Background Check System (NICS) in the United States increased by 8.39% in the last year.

Recognizing the growing presence of background checks, Peopletrail developed Consumer Credentials to help individuals ensure that they are getting instant, reliable, cost-effective, and accurate information on their personal background checks. The new subsidiary streamlines the employment screening processes, reinforces trust and strengthens the candidate and employer relationships.

Peopletrail's CEO Wallace Davis commented, "With all of the information floating around out there, a mass violation of consumer's rights and the absence of personal information protection, there is finally a place where consumers can come to obtain a personal relevant, and accurate, report regarding credit, criminal and/or other personal data that CRA's regularly compile about them without compromising their privacy and security."

Visit the website for more information about [Consumer Credentials](#).
