FINANCIAL POISE WEBINAR ONE SHEET
DIGITAL MARKETING TIPS FOR THE NEW (OR OLD!) BUSINESS OWNER 2020

ABOUT THIS SERIES

Approximately 83,300 small businesses in the United States are closed every year because of ineffective marketing. This indicates that many business owners are unknowledgeable of how to leverage the power of marketing. While this is unfortunate, it is not surprising. There are countless marketing companies trying to sell their services, and these services range from billboards, to social media marketing, to telemarketing and more. Though these marketing tactics can be very effective, improper planning can lead to failure. As such, this webinar series is designed to educate business owners on how to prepare, execute and refine their own customized marketing initiatives. After finishing this webinar series, the business owner should have a much clearer and strategic plan for their own marketing.

As with every Financial Poise webinar, each episode in this series is delivered in Plain English understandable to investors, business owners, and executives without much background in these areas, yet is also valuable to attorneys, accountants, and other seasoned professionals. And, as with every Financial Poise webinar, each episode brings you into engaging, sometimes humorous, conversations designed to entertain as it teaches. Each episode in the series is designed to be viewed independently of the other episodes, so that participants will enhance their knowledge of this area whether they attend one, some, or all episodes.
