The Goals of the Institution

As set forth in the Certificate of Incorporation of the Institute, the Goals of the Institute are: "I. To establish a central information resource center covering the full range of studies, protocols, breakthroughs and information on dietary supplement nutrients and their role in human health maintenance and possible disease control. "II. Create a basic support and information source on natural products heretofore mainly overlooked and/or neglected. "III. To provide to the community information, in the form of releases, seminars, newsletter, counseling, information programs and other media on natural products, dietary supplements, human health maintenance and disease control."

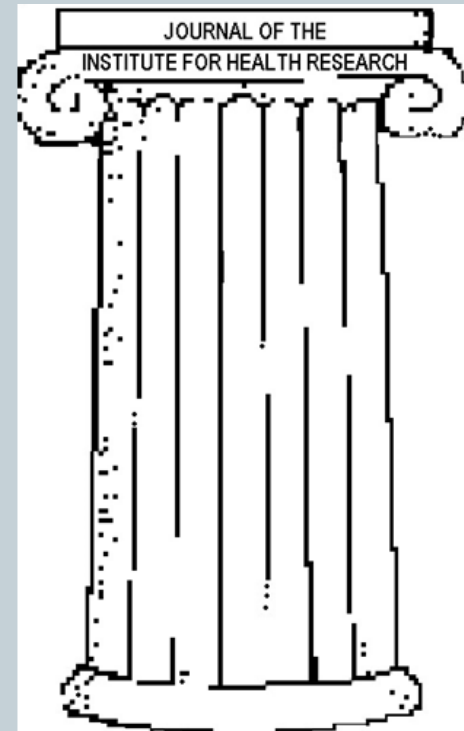

IHR - The Woodlands, TX

Institute Journal

5

- Five years of publication
- Papers by noted authors
- Authors include:
 - Gary Null, ND
 - Rima E. Laibow, MD
 - Hon. M. Murata
 - Sharry Edwards, MEd

Institute IRB

6

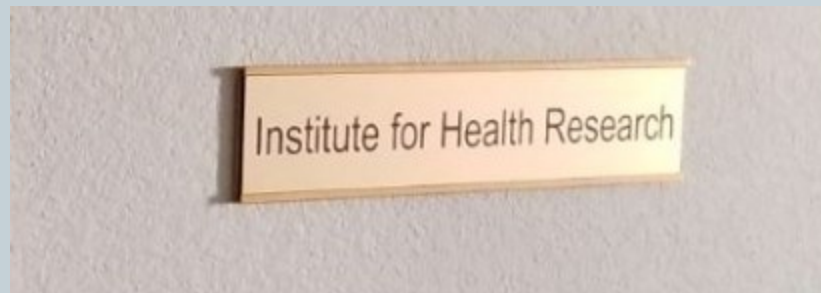

INSTITUTIONAL REVIEW BOARD

- If the sponsor of a clinical trial or study intends to qualify for publication in a peer-reviewed or other journal the trial or study must *first* have its Protocol approved by an Institutional Review Board (IRB). The work of the IRB is to assure that proper ethical standards are maintained and that the safety and Informed Consent rights of participants are respected. This must occur prior to the start of the clinical trial or study.
- The value added to IRB services by the Institute is that the Institute works directly with the PI (Principal Investigator) to draft a scientifically valid and IRB-compliant trial or study Protocol.

Institute Continuing Education

7

The Institute sponsors Continuing Education training and certifications for PIs, practitioners, consultants and study or trial sponsors.

Institute Funding Program

8

GOALS for 2020

- **Two Primary Goals:**

Support the Work of the Institute

Support Public Advocacy for Better Outcomes

Institute Funding Program -2

9

- **Support the Work of the Institute**

In general, provide funding to meet annual expenses

Goal: \$100,000

- **Support Public Advocacy for Better Outcomes**

Currently fund-raising for three programs:

1. Support the “Provider Non-Discrimination” Litigation

Goal: \$50,000

2. Support Counsel Patricia Finn’s “Learned Intermediary” case before the New York Courts, protecting physicians’ right to express Medical Exemptions [1]

Goal: \$50,000

3. Support the Autism Spectrum Clinical Trial for Ethically-Harvested Ovine-Placenta Based Formulation

Initial Goal: \$100,000

PROVIDER NON DISCRIMINATION

10

The Affordable Care Act - Section 2706(a), prohibits insurers from discriminating against healthcare providers who are acting within their legal scope of practice.

In this case the Insurer is saying it doesn't have to cover "alternative" medicine for its policy holders, even though the health care is being delivered by an MD, advanced practice nurses and a naturopath, working under them.

What this means is that this case may be a proper vehicle to test the extent of the ACA's "provider nondiscrimination" clause — this case may set a precedent forcing insurers to cover holistic and integrative care!
