

DIGITAL TRANSFORMATION JUMP-START

"JUMP START" YOUR JOURNEY IN 30 DAYS ON A FEDRAMP CLOUD WITH FIERCE SOFTWARE

NAVIGATING A DIGITAL TRANSFORMATION IS CHALLENGING.

IT REQUIRES BOTH TECHNICAL ACUMEN AND A NEW APPROACH TO HOW ORGANIZATIONS BUILD AND DEPLOY MODERN APPLICATIONS. FIERCE SOFTWARE HELPS GOVERNMENT AND COMMERCIAL CUSTOMERS SUCCESSFULLY IMPLEMENT DEVSECOPS AND DATA ANALYTICS PRACTICES THROUGH ON-SITE TRAINING AND TECHNICAL EXPERTISE.

The Fierce Software Jump-Start begins with an introductory-level workshop followed by a guided 30-day Proof of Concept environment to enable your first DevSecOps or Data Analytics project. It includes:

- 30 day access to a managed Red Hat OpenShift environment on ORockCloud
- Development of a highly available and scalable architecture
- On-site consultation from a Fierce Solution Architect and ORock Cloud Architect
- Best practice education and training
- Trial software for Enterprise Open Source Solutions
