

17th February 2020 - Company Announcement

27k1 Ltd appoint CVG Strategy LLC as the first, US reseller of the 27k1 ISMS

According to the latest ISO 2018 Survey, demand for ISO/IEC 27001 certification in the US has increased by 37% since 2017. Given this growth trajectory and recognising that ISO 27001 is the global, “gold standard” in information security certification, 27k1 Ltd is delighted to announce that it has taken steps to introduce the [27k1 ISMS](#) (Information Security Management System) software to the US market, appointing CVG Strategy, LLC, as its first US based system reseller.

Many companies are struggling with the implementation of a compliant ISMS for [NIST 800-171](#) using ISO 27001 as solution. Now, with the U.S. Department of Defense’s announcement of [Cybersecurity Maturity Model Certification \(CMMC\)](#) replacing NIST 800-171, ISO 27001 ISMS will be much easier to implement for all sizes of organizations. Now, with the 27k1 ISMS software to support the effort, companies can abandon the spreadsheet approach to process control.

About CVG Strategy, LLC

CVG Strategy, based in Viera, Florida is an established Information Security consultancy, focused on delivering a range of Governance, Risk and Compliance solutions, including US DoD Standards, NIST and ISO 27001.

The business is owned and operated by Cindy and Kevin Gholston, who are highly qualified ISMS practitioners. Their team possess extensive knowledge of Quality, ITAR and Export Compliance, Product Test and Cybersecurity. Complemented by effective training and implementation services, their staff include Exemplar Global Certified ISO 27001:2013 Lead Auditors and CISSP Experts.

Directors Comments

Jeremy Martin, [Co-Founder of 27k1 Ltd](#) stated that “we are thrilled to be working with CVG Strategy, given their expertise, customer base and their enthusiasm for supporting their customers through the ISO 27001 certification process. Moreover, following the UK’s recent exit from the European Union, we look forward to closer trading relationships between US and UK businesses.”

Similarly, Cindy Gholston, President of CVG Strategy remarked that “In the 27k1 ISMS we have finally found a total, software compliance solution that takes us away from using spreadsheets, templates and paper documentation. The intuitive design of the system will allow our customers to become more involved with information security and risk management, better understanding their position and at the same time, secure their place on federal and international supply chains.”

System Pricing

The 27k1 ISMS is priced at US\$1,960.00 enjoying 1 year's subscription, including full product support. For more information, please visit <https://27k1.com/>.
