

- 1 Plug the Shred Cube device into a compatible PC or Mac with USB port.

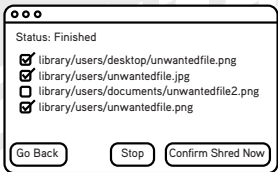

2

Simply Drag-and-drop all your unwanted file(s) to the Shred Cube icon or open file(s) in the Shred Cube application.

- 3** Choose to “Shred Individual File” or “Scan for Edited Versions or Copies of File(s)”. Process speed may vary depending on selected files and computer.

4

Click to confirm that you want to permanently shred the file(s) selected. No recovery will be possible.

**5**

Minimize and leave Shred Cube plugged for Drag-and-Drop use or disconnect the device in the Shred Cube application.

- 6** Have peace of mind your files are securely shredded.
