ATLANTIC SALMON ESCALLOPINO

Our MOWI® Atlantic Salmon Escallopino, often referred to as “minute steaks,” are refined bistro cuts coming only from the salmon loin. The uniformity of the Escallopino allows for quick cook time and a perfectly seared result every time.

Fresh, never frozen fillets are shipped direct from the pristine waters of Norway and hand cut in the US. With more Omega-3 than the average Atlantic Salmon, MOWI® takes healthy to a whole new level.
