## phoenixNAP Deploys ExcelliPath IP Transit at its Phoenix Data Center

phoenixNAP adds ExcelliPath to its carrier hotel to improve connectivity options

**Phoenix, AZ, Mar 24, 2020 –** phoenixNAP®, a global IT services provider offering security-focused cloud infrastructure, dedicated servers, colocation, and specialized Infrastructure-as-a-Service technology solutions, announced today that ExcelliPath, a national provider of colocation and IP Transit services, has established a Point of Presence (PoP) at its data center in Phoenix, Arizona. This new deployment expands carrier options for phoenixNAP's clients and provides a strategic new interconnectivity point for ExcelliPath.

ExcelliPath's provides IP transit and colocation services out of 20 states, ensuring nation-wide availability. Delivered at competitive prices, these services enable organizations to access affordable network and bandwidth resources to achieve availability, stability, and redundancy. IP Transit is provided no contract and it can be activated in less than 24 hours in most locations.

> *"ExcelliPath joins our carrier-neutral Meet-Me-Room to provide additional connectivity options for our clients and tenants,"* said Ian McClarty, president at phoenixNAP. *"Its global IP Transit service will enable organizations to cost-effectively improve their speed, increase throughput, and ensure redundancy. We are thrilled about this new deployment and we look forward to working with ExcelliPath."*

phoenixNAP's data center facility is SOC 1, SOC 2, and PCI DSS certified, providing maximum levels of security and redundancy. The services available out of the facility include colocation, hardware-as-a-service (HaaS), dedicated, public, and hybrid cloud solutions, as well as backup and disaster recovery services. The facility is located near the major domestic and international fiber routes, connecting to the company's 15 data centers and network PoPs across the world.

phoenixNAP's dedicated carrier-neutral Meet-Me-Room is home to over 40 network, bandwidth, and telecommunications carriers and this number constantly grows as new companies select phoenixNAP for their strategic deployments. By constantly expanding its carrier connectivity options, phoenixNAP improves network capacity and ensures net neutrality.

> *"We are excited to work with phoenixNAP on enabling new connectivity options for Arizona-based organizations and those looking to expand their presence in the region,"* said Chris Trower, CEO, ExcelliPath. *"Our deployment at its data center provides a strategic new interconnectivity point to our network for organizations looking to improve their data transport security and speed."*

**About phoenixNAP**

phoenixNAP® is a global IT services provider with a focus on cybersecurity and compliance-readiness, whose progressive Infrastructure-as-a-Service solutions are delivered from strategic locations worldwide. Its cloud, dedicated servers, hardware leasing, and colocation options are built to meet ever-evolving IT businesses requirements. Providing comprehensive disaster recovery solutions, DDoS-protected global network, and hybrid IT deployments with software and hardware-based security,

phoenixNAP fully supports its clients' business continuity plans. Offering scalable and resilient opex solutions with expert staff to assist, phoenixNAP supports growth and innovation for businesses of all sizes, enabling their digital transformation.

phoenixNAP is a Premier Service Provider in the VMware® Cloud Provider Program and a Platinum Veeam® Cloud & Service Provider partner. phoenixNAP is also a PCI DSS Validated Service Provider and its flagship facility is SOC Type 1 and SOC Type 2 audited.
