

# ReMeDi<sup>®</sup>-SCAN-CORONA

*An ideal solution to control the Novel Coronavirus (COVID-19) Pandemic in your hands now*

“Most effective way to prevent infections and save lives is breaking the chains of transmission, and to do that, you must test and isolate. We have a simple message for every country – test...test...test. Test every suspected case, if they test positive, isolate them, and find who they have been in close contact with. And test them too”

*Dr. Tedros Adhanom Ghebreyesus,  
Director General - WHO*

ReMeDi® – SCAN – CORONA Solution precisely makes this task of **Screening, Testing, Identifying, Tracking and Reporting** extremely easy and manageable at a **Large Scale**

## SCREENING KIT

Thermometer

Pulse Oximeter

Blood Pressure Monitor

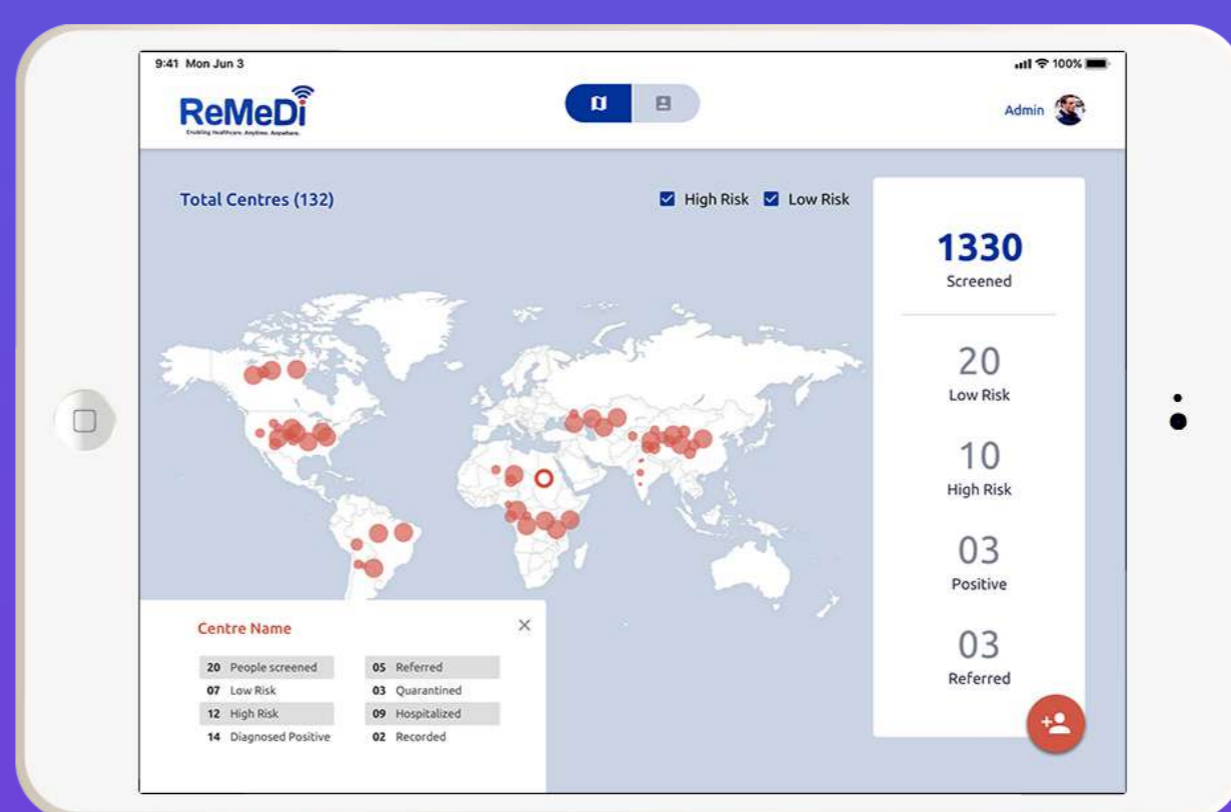

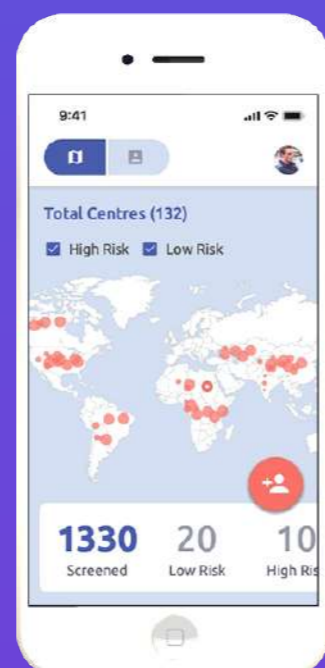

Rapid Test Kit for COVID-19

ReMeDi® CORONA-SCREEN KIT provides you with the basic screening tools enclosed in a portable, light-weight casing. These devices are specifically designed for seamless connection and feeding the data directly in to the PHR without any manual intervention

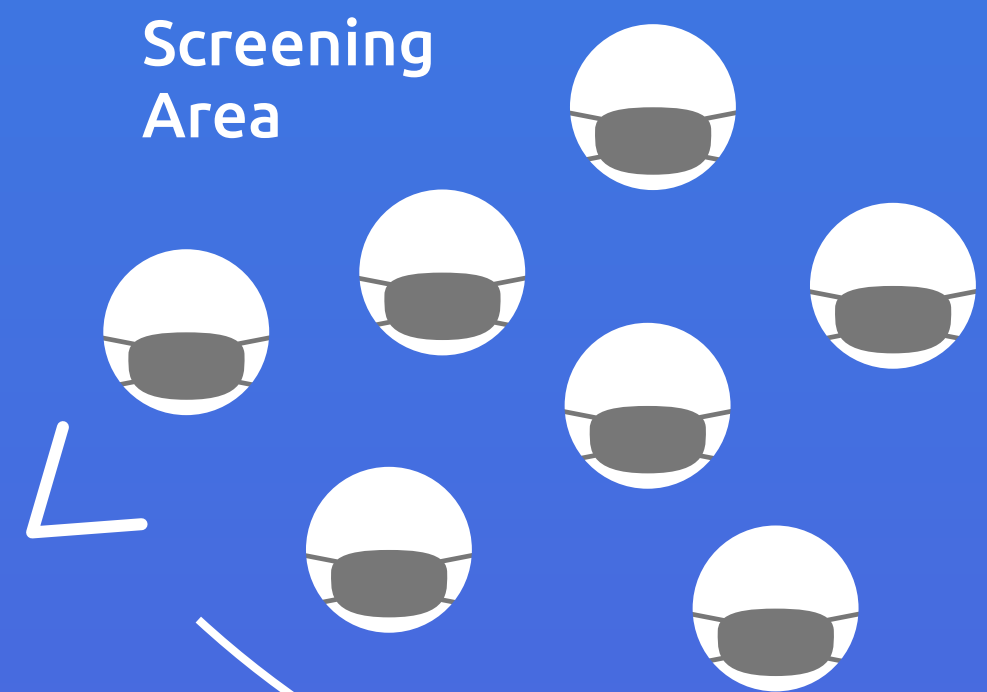

## SCREENING APP

Allows front-line health workers to assess the essential **RISK FACTORS** for the person - Digitally!

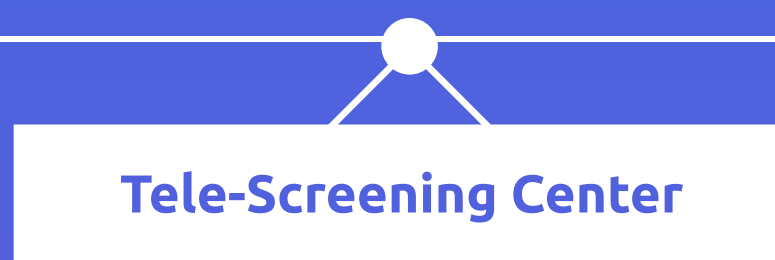

- Obtains basic essential information, symptoms, travel history, etc.
- Seamlessly imports diagnostic data from ReMeDi® CORONA SCREEN Kit
- Generates Risk Index for each screened individual
- Offers Strong Management Information System including geo-tagging facility
- Generates detailed statistics for each screening site, including geographical spread of the cases
- Provides Time-based update and tracking of the symptoms
- Generates various analytics to help timely action

## STEP #1: Capture Patient Data

## STEP #2: Data Collection

- Collect symptoms (Fever, Running Nose, Stomach Ache, etc.)
- Track travel history of past few weeks
- Identify the contacts made in the past few weeks
- Perform screening tests (Temperature, SPO2, BP, COVID-19, etc.)

## STEP #3: Diagnosis and Next Steps

**HIGH RISK**  
refer to hospital with details

**MEDIUM RISK**  
Educate, Re-test Schedule, Home Teleconsult, Track

**LOW RISK**  
Educate, Home Teleconsult

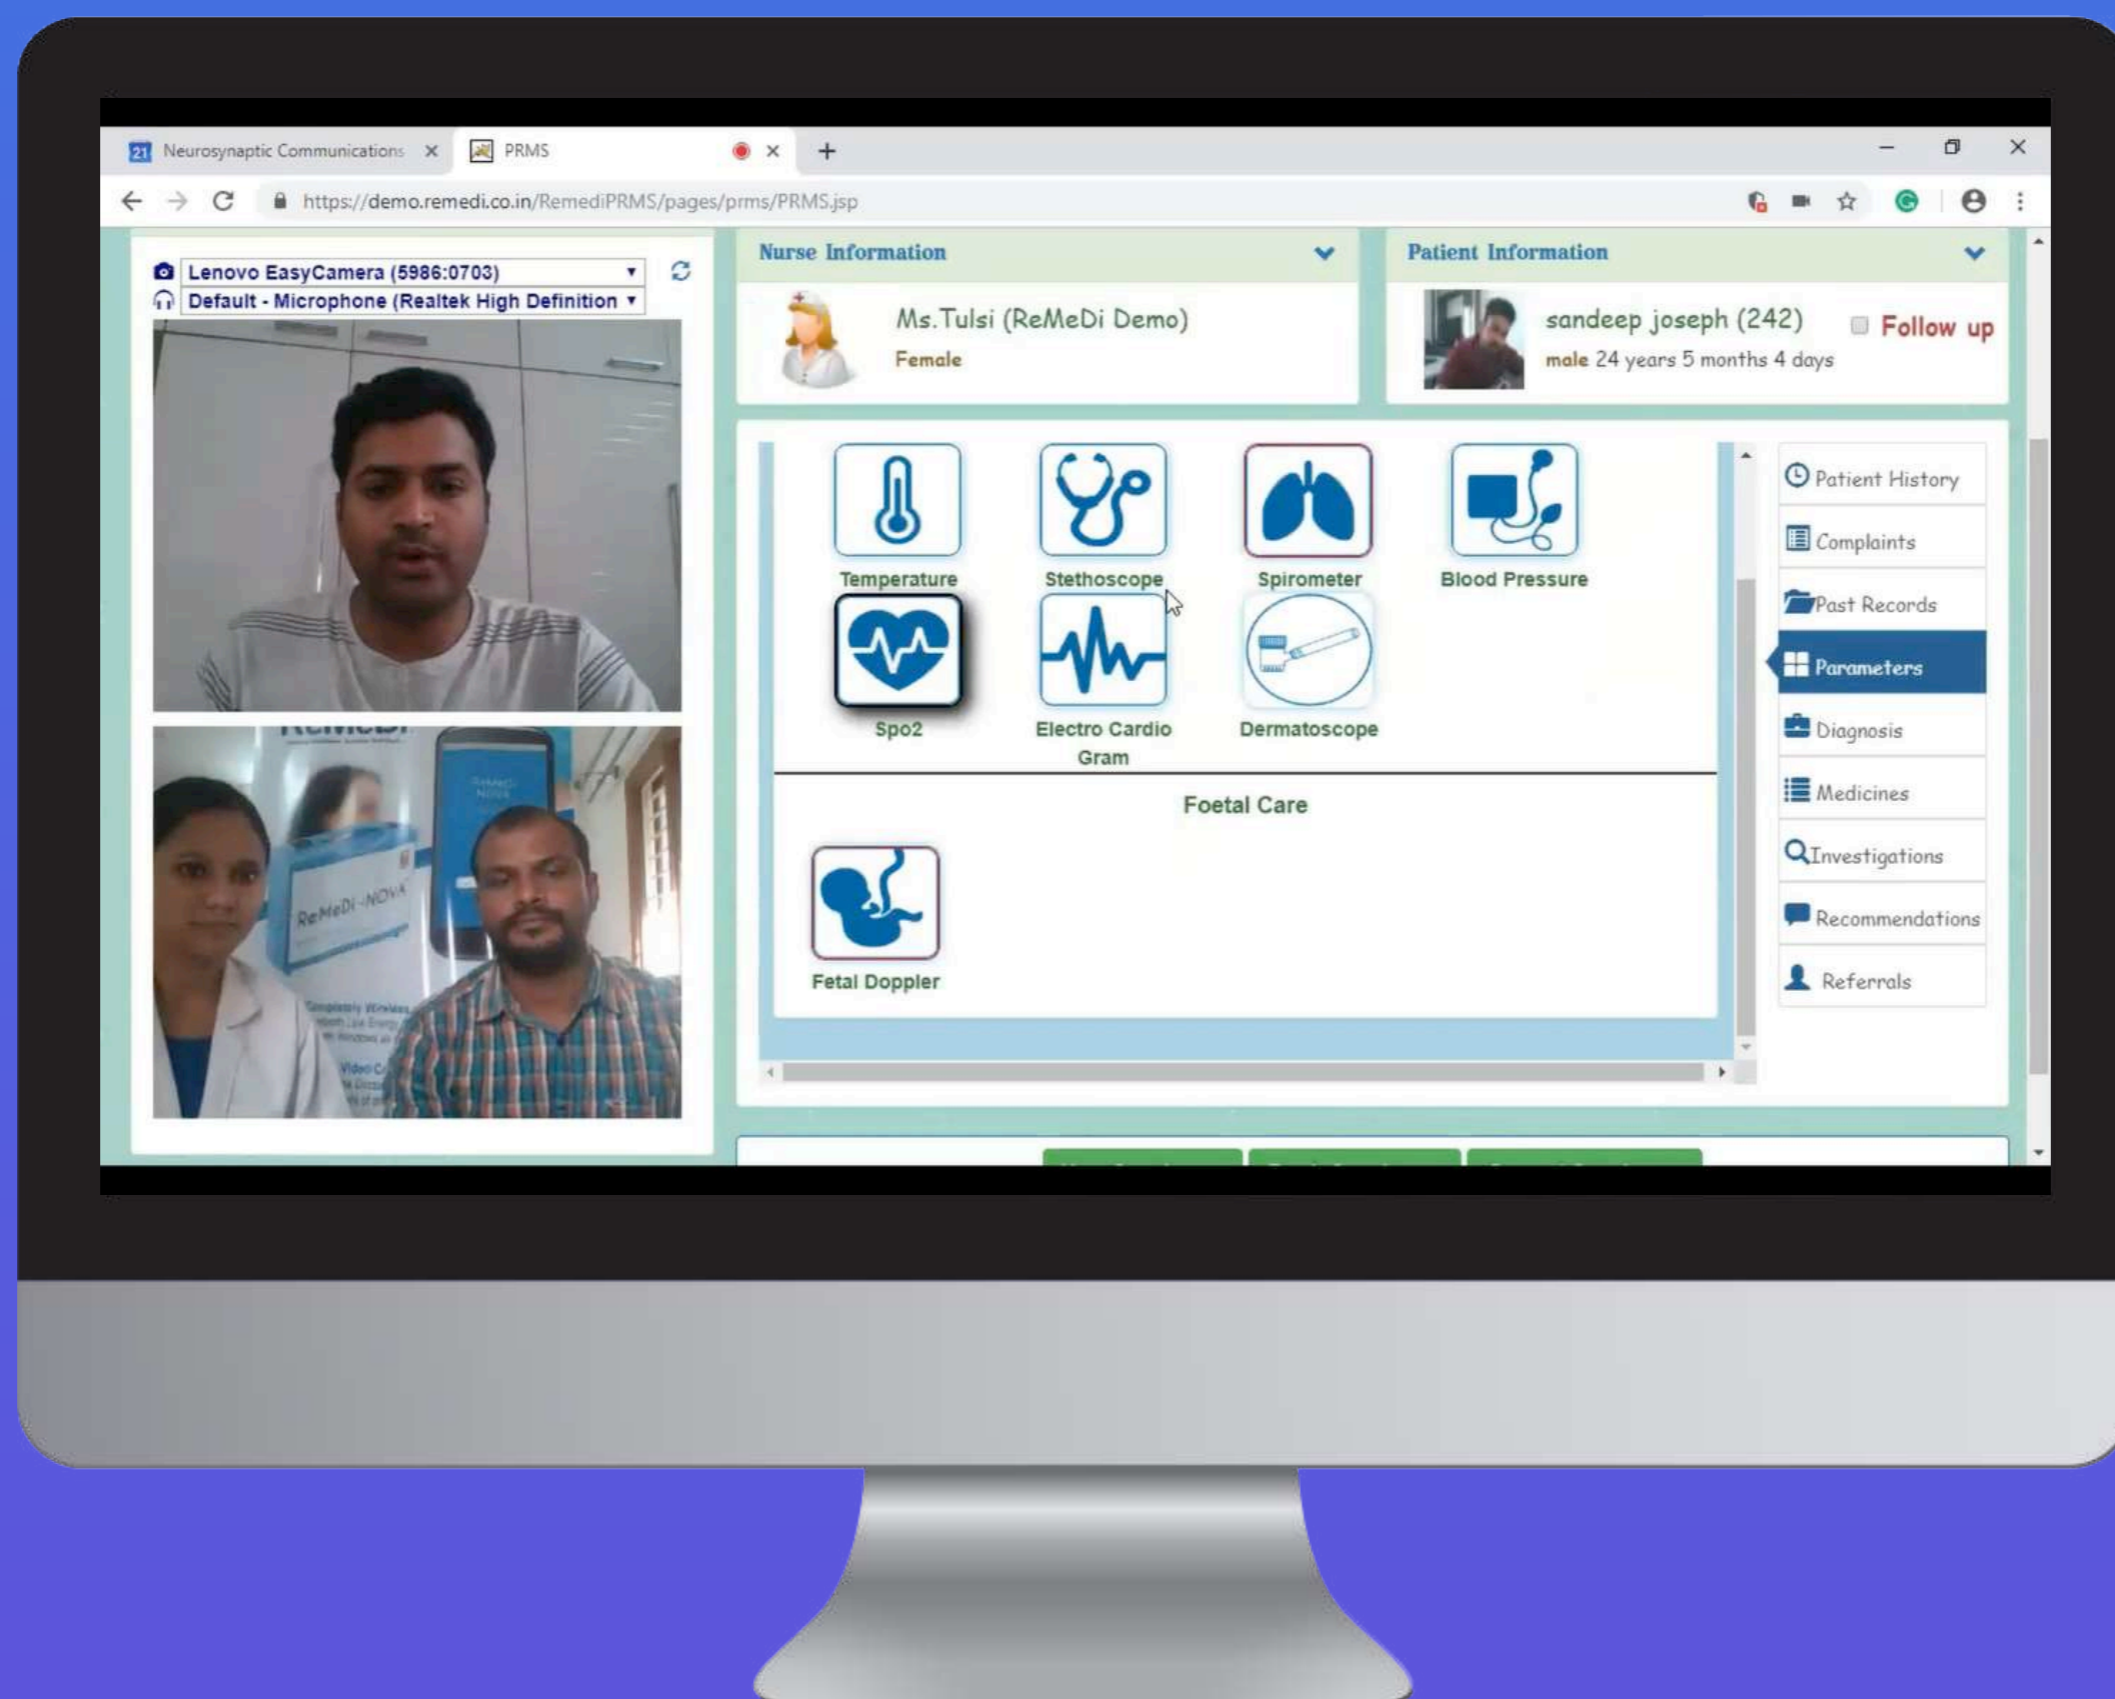

Suspect carries out remaining tests. Hospital confirms +Ve or -Ve for COVID-19

## STEP #4: Tele-consultation

Seamless entry of individual's PHR into ReMeDi<sup>®</sup> Tele-consult system. Individuals given login for updating PHRs and tele-consultation from Homes through ReMeDi Platform. They are also tracked telephonically, where tele-consults are not possible.
