CREATIVE TRACEABILITY

## EXPERT IN PERMANENT MARKING AND IN INDUSTRIAL TRACEABILITY SOLUTIONS

17 years of creativity, innovation and experience,  
TECHNOMARK has become a reference in its market.

### CREATIVITY AT THE HEART OF THE COMPANY

Technomark's employees are all committed to contribute to the development of the company by being involved in group projects.

This approach allows Technomark to anticipate the needs of our customers to provide real added value.

# 17

Patent applications filed or in progress around the world

### THE ETHICS ABOVE ALL

#### FROM OUR EXPERIENCE...

TECHNOMARK is proud to held the ISO 9001 (2008) certification, which help us to provide quality control at every stage of the manufacturing process and continous product improvement.

#### ... TO SOCIAL SKILLS

Because **human ressource is our key asset**, Technomark was awarded by the AS certification IIP which values the quality of our management. Technomark strives to bring good working environment, and develop our staff competence.

**Technomark's social responsibility**. We donate 10 euros for each machine sold to charities.

#### ENVIRONMENTALLY FRIENDLY

Technomark has always **paid attention to the environment**.

In order to preserve it, our company has implemented many actions to reduce environmental impact as recycling materials used, a building construction certificated BREEAM Very Good, respectful of environment and energies control...

## DEVELOP A LONG-LASTING PARTNERSHIP

### TO ADVISE AND GUIDE YOU

Technomark helps you to make the right investment for park machine and provide the best possible delivery times.

We offer pragmatic advice based on our experience to suit your marking needs.

- Feasibility study
- Sample marking
- On-site free trial
- Financial solutions
- Loan of equipments
- Buy back solutions

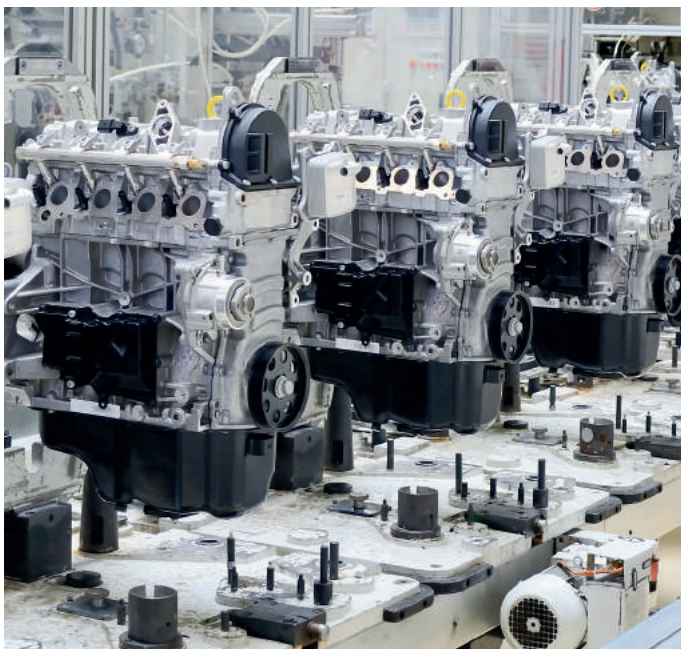

### CREATE A STRONG RELATIONSHIP

Technomark is constantly looking for positive ways to improve our customer services.

We are able to service the equipment efficiently by addressing customers requests rapidly and ensuring maintenance follow up.

- Hotline
- Repair
- Maintenance service contract
- Factory or on-site maintenance service contract
- Product trainings adapted to your needs
- Guarantee of continued production

## OUR ACTIVITY AREAS

More than 8000 customers worldwide trust in us in various sectors.

SOME OF OUR SECTORS :

AEROSPACE

MEDICAL

AUTOMOTIVE

NUCLEAR

DEFENCE

METAL WORKING...

## INNOVATION & SERVICES

FOR YOU AND WITH YOU

### INVESTING IN RESEARCH

10% of our turnover and 25% of our staff are dedicated to continuous innovation.

All our new products have to answer 4 criterias :

- Quality
- Technology innovation
- Price / performance / quality ratio
- Eco-design

### PROVIDE A CUSTOMIZED OFFER

To give you the best answers, our teams have the following skills:

- Mechanics
- Automation
- Vision / Reading systems
- Electronics
- Industrial Technology (IT)
- Robotics

## DESIGNED

TO SERVE YOU BETTER

**MULTI4<sup>®</sup>**

4 IN 1 : technomark designed this concept by creating MULTI4\*, the first modular marking equipment. A single machine with 4 configurations.

\* Patent No. FR9914782

**iD!**  
mark  
& track

**3D  
MARK**

3D Mark : the association of electromagnetic to exclusive IDI\* innovation constitutes a real solution free from marking part landforms.

IDI\* : marking function: ensures the quality of marking.  
Tracking function: provides marking security.

\* Patent No. EP06 764715.6  
Patent No. US9,421,598

**98%**

Our customers average satisfaction rate on 3 years\*

**94%**

Our customers average recommendation rate on 3 years\*

\* Prestance firm source, 2016 november France survey.

## INTERNATIONAL EXPERTISE

With more than **160 partners** in **47 countries**, our products are available everywhere with the best delivery times.

All our distributors are certified according to Technomark's protocols in order to guarantee an effective and relevant level of service.

5 Technomark Technocentres are giving the same sales and after sales service worldwide : North America, South America, Western Europe / Africa / Middle East, Eastern Europe, Asia-Pacific.

## A FEW FIGURES ABOUT TECHNOMARK

**47**

Presence in  
47 countries

**12M€**

Turnover\*  
A 15% growth per year

**10%**

Turnover dedicated to  
the R&D and 25 % of  
staff dedicated to the  
R&D

**15000**

Marking  
units

**160**

Partners worldwide

**+80000**

Customers worldwide

**05**

Technocenters

**37%**

Customer trust  
for more than  
10 years

New premises size\*

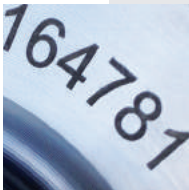

\* 1st BREEAM Very Good's certified production facility (provisional certificate)

# 1 200 m<sup>2</sup>

Production unit,  
area was multiplied by 2

## A COMPLETE RANGE OF PRODUCTS

We offer high performance, modular, simple and effective solutions which fit into production processes, in collaboration with our qualified suppliers.

### LASER

The principle is based on a beam of high intensity and high finesse focused and directed towards the part to be marked. Orientation is ensured by a galvanometric head composed of two mirrors. The marking is contactless and universal on all types of substrates: plastics, metals, ceramics...

### DOT -PEEN

The principle is based on a hollow deformation of the material with a vibrating tip carbide which creates a character by a series of points. It provides a permanent marking, without risk of fracture initiation on all materials that accept deformation and have a hardness less than 63 HRC.

### SCRIBING

The principle is based on penetration of the marking point in the material under the effect of air pressure thereby creating a continuous line of a character of high legibility. This technology is silent, less than 72 dB (A), particularly suitable for marking noise generating parts, tools of high hardness and also for marking aspect.
