

Aderant Releases Drive: Secure, Scalable Collaboration Sites Made Easy

Enables data-rich collaboration sites that allow firms and clients to share and interact with information.

ATLANTA – April 14, 2020 – Aderant, a global leader in providing business management software for law firms, is excited to announce the release of its latest product, which brings real-time collaboration to the firm-client relationship – Aderant Drive. Drive provides firms and their clients with a simple and secure way to share, manage and interact with content.

Today’s law firms face increasing pressure from their clients to provide transparency, optimize for operational efficiency and achieve cost-effectiveness in service delivery. Many firms struggle to manage this aspect of their client relationships, relying on costly and time-consuming one-off solutions that fall short of client expectations. Aderant Drive leverages the features of Office 365[®] to create engaging client experiences, without the technical challenges of creating and managing external portals. Firms can easily create multiple client collaboration sites where they can share client matter data, billing information, legal team tasks, and more, in real time with minimal reliance on the IT team.

“The demand for transparency in the legal marketplace continues to grow each year. Aderant Drive now presents law firms with an easier option to not only collaborate on their matters, but also share matter and financial information seamlessly in real time,” said Executive Vice President Chris Cartrett. “We are very excited for the release of this product, especially at a time with so many working from home, looking for best practices in communicating with a scattered client base.”

With Aderant Drive firms can:

- Securely share and collaborate on documents, including financial information such as bills and matter progress updates.
- Scale quickly with easy-to-create client sites, minimizing the drain on precious IT resources.

- Automatic provisioning of external sites.
- Access 40+ line-of-business plugins, including: Top Law Firm Practice Management Systems, Online Legal Research, ECM/Document Management Systems, News & Company Research, CRM Platforms, 3rd Party Time Entry Systems.

“Aderant Drive is the first solution in the industry to provide this level of collaboration at speed and scale,” said Emmanuel Kyrinis, Vice President of Product Management. “We look forward to helping firms strengthen client relationships and gain a competitive advantage in winning and growing business with Aderant Drive,” Kyrinis added.
