Generating a fast, Private, Secure Identification Method after being tested negative for COVID-19 by Any Immediate Testing Method

ABSOLUTE POSITIVE IDENTIFICATION THAT THE PERSON AND INFORMATION IN THE CODE MATCH AT THE TIME OF THE TEST!

THE CODE CANNOT BE CHANGED OR CREATED BY OTHERS AS EACH AGENCY OR MANUFACTURER HAS THEIR OWN CODE GENERATOR WITH AN AUTHORIZATION KEY.

IT IS THE FIRST CODE IN THE WORLD WITH THE ABILITY TO EMBED BOTH TEXT , PHOTOS, OR BIOMETRIC DATA IN THE CODE ITSELF, SO THERE IS NO CONNECTION TO THE INTERNET, OR A DATABASE REQUIRED.

COPYING THE CODE ONLY DOESN'T CHANGE THE INFORMATION IN THE CODE.

EACH MANUFACTURER OR AGENCY HAS THE ABILITY TO CREATE A UNIQUE CODE THAT ONLY THEY OR FIRST RESPONDERS CAN READ WITH A SMARTPHONE WITH THE MATCHING APP.

HD BARCODE™

Four Step Process to Provide Positive Identification as Testing Negative for COVID-19

Step #1

1. Take a 10-minute test at an Approved Site and Test Negative
2. Have the Tester fill out the Information from the form, including your test, their name, date, location, and your photo.

Step #2

3. Print a Teslin HD Barcode with that Data and Apply it to your Driver's License or an ID Card. All data is deleted after the code is created.

Step #3

4. Go to the Business or Restaurant and have your temperature checked and the code scanned.
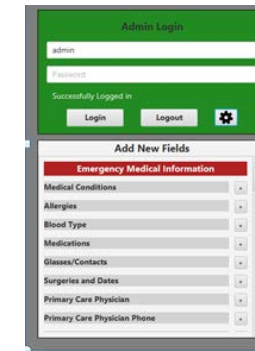

Step #4

Enter the Business or Restaurant

PRINTING HD BARCODES ONTO AN ID CARD OR A LABEL

Our HD Barcode can embed encrypted Photographs, Biometric Data, and Medical information that can only be Decoded by Authorized Smartphones with the Matching Security Key

(Video Link for Biometric Authentication below)
https://drive.google.com/file/d/1nWDBgKpt-tirhioolKoVyFMifMeaSfMy/view

WATER RESISTANT PPG TESLIN LABELS CAN BE PRINTED FROM A STANDARD DESKTOP PRINTER AT 600 DPI.

The labels can be applied to a driver's license or credit card

WATER RESISTANT PPG TESLIN LABELS

The Information in the HD Barcode can provide a range of Information that may be Required:

This can include:
1. Medical Person providing the test
2. Where the Test was Administered
3. Date of the Test
4. Results of the Test
5. Person's Name
6. Person's Address
7. Person's D.O.B.
8. Photograph of the Person
9. Biometric Information

LABEL APPLIED TO A LICENSE OR ID CARD

Label will display a "Void" pattern if it is peeled off the Document.

Created with Entrust Datacard Retransfer Printer

- **Authorized Smartphones can download the reader applications to read ID Cards.**
- **Encrypted . No information is obtained if Information is hacked other than name or ID Number as all the information is in the secure Barcode.**

- **COPYING CARDS DOES NOT HELP AS THE COUNTEREITER CANNOT CHANGE THE HD BARCODE AND INFORMATION IN IT.**

VERIFICATION OF THE INDIVIDUAL AT THE RESTAURANT OR BUSINESS

Suggestions:

*Start in Areas with No Virus
*Limit Entry to Within a Mile of the Restaurant or by Zip code
*Allow Individuals to Open with Thermometers and Staff to Check
*Separate Seating
