

## **iPatientCare telehealth solutions witnessing an unprecedented demand due to Coronavirus Outbreak**

**Having so many new users onboard, iPatientCare telehealth solutions emerges as an easy-to-use tool which is made available through existing users' devices: computers, smartphones, and tablets**

**CINCINNATI, OHIO, May 14, 2020:** iPatientCare, a pioneer in cloud-based **ambulatory EHR**, revenue cycle management services, integrated practice management, and patient engagement solutions announced special recognition and success in delivering telehealth solutions specifically targeted to the current pandemic.

“We are using the telehealth through iPatientCare and the team has been awesome getting us up and running! The technology infrastructure and service delivery by iPatientCare has enabled us to handle the sudden influx of patients visiting us virtually.”, said **Susan Fili, RN/Office Manager, Yuil Medical Associates**

Elaborating on the functionality of the iPatientCare Telehealth platform, made available globally as an independent platform that can integrate multiple EHR and other patient-centric clinical system, **Tejhas Vyaas, Sr. Healthcare Analyst, iPatientCare/AssureCare** said, “iPatientCare telemedicine platform provides not only video integrated provider-patient virtual encounters but allows chatting, screen-sharing, file sharing, and session recording functionalities which are not yet part of any recognized EHR platforms natively.”

“We are very pleased to meet the demands of the wider healthcare spectrum in supporting the front line healthcare workers in serving patients remotely. iPatientCare Telemedicine platform has been adopted globally, in the United States, Middle East, and Southeast Asia.” said **Manish Singh, TeleHealth Growth Executive, iPatientCare/AssureCare**.

### **About iPatientCare**

iPatientCare is a full suite of innovative healthcare products and value-added services that help physician offices, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide in improving the health of their patients, enhancing patient care through care management/coordination/analytics, and reducing costs of care delivery.

The awards-winning EHR, integrated practice solutions and value-added services, such as, the **revenue cycle enhancement** and quality improvement consulting, provide everything you need to control your practice operations, increase revenues, and provide better patient care.

The iPatientCare EHR - version 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the **ONC Certified Health IT Product List**.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry by CMS, and has a distinguished credit of being selected as a preferred EHR and medical billing software by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
