

For Immediate Release:

Skytron and Surfacide Relationship Mutually Terminated

Skytron has removed the Surfacide Helios UVC Robot system from our product line up, effective immediately.

Skytron will continue to provide the best portfolio of high-quality UVC Robots in the industry, offering single-cycle, whole-room UVC treatment. Smart Dosage technology ensures the proper concentration of UVC, and the Steritrak cloud based information system supports productivity management and protocol compliance.

Skytron Summary

Skytron, The Healthcare Efficiency Company, has long been a leader in delivering efficient, versatile solutions that support caregivers while saving costs for their organizations. With a focus on increasing the utilization of people, facilities and capital, Skytron offers solutions in Clinical, Infection Prevention, Sterile Processing, Architectural and Business Intelligence Solutions, all of which are designed to provide an excellent user experience while being durable and lower lifetime cost to own.

Skytron's mission is to provide clinically superior equipment with lower life-cycle costs for our healthcare customers. For more information, call 800-759-8766 or access www.skytron.com.
