

PRODUCT PRESS RELEASE

Stertil-Koni Debuts Portable Air Over Hydraulic Jack for Field Use with 25 Ton Capacity

For immediate Release

STEVENSVILLE, MD, June 9, 2020 – Stertil-Koni, the recognized leader in heavy duty [bus lifts](#) and [truck lifts](#) across North America, today introduced its first portable air over hydraulic jack – ideal for servicing vehicles in the maintenance bay or on the road.

Weighing in at only 60 lbs., this lightweight, two-stage workhorse – Model SKB25-2 – has a lifting capacity of first stage, 25 metric tons, with a final stage of 10 metric tons. It is equally at home on the shop floor or on the road. The ultra-portable design incorporates a 21.6” handle that folds for easy transport.

That makes it ideal for mobile service applications.

“What’s more,” noted Carl Boyer, Stertil-Koni Shop Equipment Specialist, “this hydraulic jack allows technicians to enjoy total freedom and comfort virtually anywhere the job takes them, with 100% confidence, reliability, and safety.”

The ultra-portable unit incorporates an optional wall mounting bracket to secure it out of the way in a service truck or on the workshop wall. Adding to its utility as an ideal portable solution are several key, user-friendly, adaptable features:

- Top quality, long-lasting, durable chromium-plated piston
- Maximum height without extensions 12.5”
- Low 6.3” collapsed height

- Easy-to-use controls with dead-man safety switch
- Built-in overload valve for added safety
- 2" and 4" extensions included.

Concluded Stertil-Koni President, Dr. Jean DellAmore, "We recognize that whether technicians are working hard in the shop or out on the road, they need reliable support and intelligently designed and engineered lifting solutions. The Model SKB25-2 portable jack is the latest example of how Stertil-Koni delivers the very best in heavy duty lifting systems – and shop equipment -- to enable our customers to effectively, efficiently, and safely perform even the most demanding tasks."

About Stertil-Koni

Stertil-Koni is the market leader in heavy duty vehicle lifts, notably bus lifts and truck lifts, and proudly serves municipalities, state agencies, school bus fleets, major corporations, the U.S. Military and more. Stertil-Koni's breadth of products meets all ranges of lifting needs and includes portable lifts such as Mobile Column Lifts, 2-post, 4-post, inground piston lifts, platform lifts, and its axle-engaging, inground, scissor lift configuration, ECOLIFT. The company's innovative, inground telescopic piston DIAMONDLIFT is now available with an optional Continuous Recess system, ideal for low clearance vehicles. Stertil-Koni USA is headquartered in Stevensville, Maryland with production facilities in Europe, The Netherlands, and Streator, IL.
