## RMT's rmtConnect™ Teleultrasound

The rmtConnect™ Teleultrasound System allows doctors and technicians to collaborate in LIVE, dynamic, real-time by sharing high definition and high resolution images and video securely. Extremely intuitive and user friendly, rmtConnect™ requires only our secure compact package and Internet connectivity. Our teleultrasound technology offers both image and video capture and storage capabilities with accompanying audio. It's the ideal solution for real-time Internet sharing and collaboration of true live high definition images. Being the most mobile of teleultrasound solutions, rmtConnect™ cost effective technology helps save time and improve patient care.

- **UPGRADABLE**
- **EXPANDABLE**
