

Titan Protect USA NIOSH-Certified N95 Respirator Masks

SUPERIOR PROTECTION: This NIOSH-approved respirator mask is a testament to the quality and reliability of personal protective equipment (NIOSH Approval Number: TC-84A-5411). It provides at least 95% filtration efficiency and reliable breathing protection against aerosols free of oil and/or non-volatile liquid particles.

EASY TO BREATHE: Made from premium filter material to provide extremely low breathing resistance, and full protection to the wearer for at least 8 hours.

EXCELLENT FIT: These N95 particulate respirator masks have an easily adjustable nosepiece made of durable aluminum, which can be shaped along the bridge of your nose to prevent leakage and fogging of eyeglasses. Two high-elasticity head-straps ensure a tight and secure seal.

SOFT & COMFORTABLE: Extremely soft surface material provides a superior tactile experience, and an inner urethane foam offers greater comfort to those who wear it for longer periods of time.

INTEGRITY PRICING: Titan Protect USA is committed to integrity pricing of all PPE supplies. All N95 Respirator Masks are shipped immediately from the USA.
