

phoenixNAP Welcomes NetActuate to its Carrier-Neutral Data Center in Phoenix

NetActuate expands network footprint with phoenixNAP

Phoenix, AZ, August 4th, 2020 – phoenixNAP®, a global IT services provider offering security-focused cloud infrastructure, dedicated servers, colocation, and specialized Infrastructure-as-a-Service (IaaS) technology solutions, today announced that NetActuate has joined its carrier-neutral data center in Phoenix, Arizona. This new addition reinforces phoenixNAP's position as a leading interconnectivity hub in Phoenix with the largest number of carriers in its Meet-Me-Room (MRR).

NetActuate operates one of the largest IPv4 and IPv6 peered networks in the world. Present in over 30 enterprise-class carrier-neutral data centers, NetActuate offers IP transit services with 1G, 10G, 40G, and 100G ports, delivering exceptional performance, low latency connectivity, and 24/7 availability. With their recent deployment in phoenixNAP's flagship data center in Phoenix, NetActuate expands its service potential and strengthens its presence in the region.

"We are thrilled to have NetActuate join our growing family of over 40 domestic and global carriers," said Ian McClarty, president at phoenixNAP. "The deployment of NetActuate in our flagship data center in Phoenix is a testament to our commitment to providing fast, reliable, and secure services. Our state-of-the-art infrastructure will help NetActuate accelerate its network operations while delivering diverse connectivity options to businesses in the Southwest."

In recent years, the Phoenix metropolitan area has seen an exponential increase in companies looking to expand their presence in the region. As a major US data center hub, Phoenix is appealing to businesses due to its redundant power supply, low tax rates, and disaster-free environment. Located at the intersection of the two largest fiber rings, phoenixNAP has become the go-to data center in Phoenix for carriers requiring unmatched availability and faster connectivity options to local, regional, and global markets.

"phoenixNAP perfectly complements our expansion strategy. Its strategically interconnected data center facilitates direct access to customers in the highly saturated US Southwest market," said Mark Price, President of NetActuate. "We are focused on increasing our presence in this competitive market. Our expansion strategy calls for enterprise-class facilities with established global interconnections, redundant power and cooling, and a proven track record in delivering unbeatable uptime and security. phoenixNAP was the only partner that was able to satisfy our strict requirements, and we are certain this partnership will continue to expand and grow in the future."
