## **Synagro's Layne Baroldi to Host Virtual Technical Roundtable at 2020 CASA Annual Conference and Exhibits**

### **Regulatory Roundtable Will Focus on Central Valley Salinity Alternatives for Long-Term Sustainability (CV-SALTS) Implications for Biosolids Application in the Central Valley**

**BALTIMORE, Maryland, August 6, 2020** – [Synagro Technologies, Inc.](https://www.synagro.com), the preeminent provider of biosolids and residuals solutions services in the United States, is pleased to announce [Layne Baroldi](#), Vice President, Technical Services and Government Affairs, Synagro, will be hosting a virtual roundtable at the 2020 California Association of Sanitation Agencies (CASA) Annual Conference on Wednesday, August 12 from 1:30 to 2:30 p.m. PT.

Join Layne online to learn about CV-SALTS implications for biosolids application in California's Central Valley.

"I am pleased to be participating in the regulatory program," said Baroldi. "[CV-SALTS](#) is a collaborative stakeholder-driven and -managed program initiated in 2006 working to develop sustainable salinity and nitrate management planning for the Central Valley. It comprises a broad coalition of agriculture, cities, industry and regulatory agencies who have joined to together to develop a vision and plan for managing salts and nutrients. This is a complex, multi-faceted issue of great importance in California."

### **About Synagro**

Founded in 1986, Synagro Technologies, Inc. works to turn waste into worth by helping more than 800 municipal and industrial water and wastewater facilities in North America move toward safer, cleaner and more environmentally beneficial practices. For some, it's simply cleaning the water supply. For others, it's much more – we partner with them to process their waste for compost or energy pellets, creating healthy soil and sequestering carbon in the process. As the largest recycler of organic by-products in North America, we're trusted because we remove risks while keeping the logistics clean. Because we have the most experienced team in the industry, we can offer tailored solutions that ensure no waste goes to waste. Much of our work isn't pretty. But it's a greener world emerging from a cleaner one – worth coming from waste – and we think that's pretty beautiful. Visit [synagro.com](https://www.synagro.com) to learn more.
