## Alex Zulas joins Pfluger as They Continue to Build DFW Office

**Dallas, Texas, August 13, 2020** -- Pfluger Architects, Inc. announces the addition of Alex Zulas as Senior Project Architect to their Dallas-Fort Worth office.

Zulas began his career in New York after graduating from Massachusetts Institute of Technology with a Master of Science in Architecture Design & Computation. In 2014, he started his career in Texas and has contributed to the design of several award-winning projects. His passion for design and his ability to see it through production has already positioned him as a valuable member of the new DFW team.

“Pfluger is excited to have Alex join our team as we build our Dallas-Fort Worth presence. Alex is a seasoned architect with an exceptional design aesthetic, and his addition brings a combined 100-years of experience to our DFW office,” said Brad Pfluger, CEO.

Pfluger’s Dallas-Fort Worth office opened in 2019. It is located in Dallas’ Historic West End District and is headed by Terry Hoyle as Managing Principal. Zulas is currently leading projects for clients in Central, North, and East Texas.
