ABOUT KMSI

Knowledge Management Solutions, Inc. (KMSI) provides software and services that enable our clients to achieve high performance by measuring and meeting the training, qualifications and performance needs of management, employees, agents, partners, suppliers and customers.
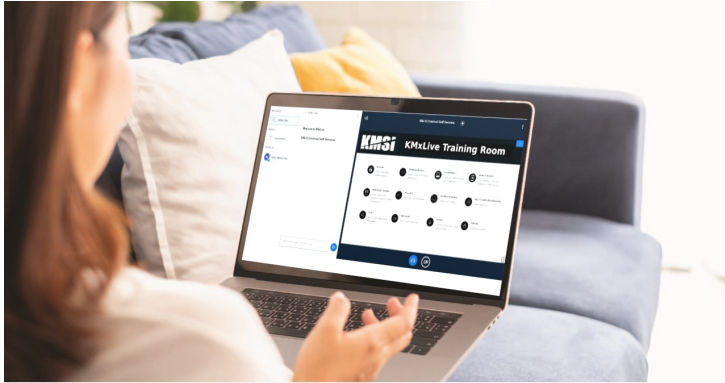

WHY USE KMxLIVE?

Today's training, testing and education challenges require technologies that provide reliability, scalability, ease of use and low customer service demands at an affordable price.

KMxLive eliminates the barriers associated with delivery of live training using the Internet. At less than half the cost of our nearest competitor, KMxLive provides the technology you need at a price you can afford.

Unlike virtual meeting room technologies, KMxLive provides the ability to deliver measurable interactive training content to participants. KMxLive can deliver slides, exams, surveys, polls and SCORM conformant eLearning lessons. KMxLive is fully integrated with the KMx LMS/LCMS and supports all blends of learning delivery.

THREE DIFFERENT ROOM OPTIONS

KMxLive Virtual Classroom

The perfect solution for large-scale training and education events, seats up to 100 per room.
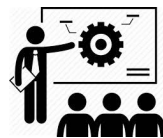

KMxLive Training Room

An affordable solution for measurable collaborative and interactive events, seats up to 20 seats per room.

KMxLive Testing Room

Virtual technology designed to meet all requirements for high-stakes testing, certification & licensing programs.
