Phoenix, AZ, August 28, 2020 – Cantor's Driving School announces that it is now offering online scheduling for driving lessons. This easy-to-use and convenient system is available 24/7. This new online tool is ideal for customers to interact with Cantor's Driving School to schedule driving lessons directly. The online scheduling system is accessed via the [Driver Training Packages](#) page on the website. However, if a personal exchange is desired, customers can talk with Cantor's Driving School's customer service representatives to purchase and schedule lessons by dialing call 480-482-1900.

Cantor's Driving School also announces another expansion, adding another new driver training car and an additional driving trainer, in response to the increased demand for driving lessons after re-opening from the coronavirus shutdowns.

To use the online scheduling system, new customers can create an account, select a single lesson or a package of multiple driving lessons, make payment with a credit card, and then select the driving trainer and time slots they want. The user interface graphically shows the available time slots for all driving trainers for users to select from. Once an account is created, users can return and schedule additional lessons or reschedule a lesson at any time without the limitations of office hours when phones are available.

About the new online scheduling system, owner Frank Cantor says, "Our new online scheduling system for driving lessons makes it easier for students to get the dates and times they want for lessons. We hope customers like the convenience and availability."

Fully licensed, bonded and insured, Cantor's Driving School employs driving instruction trainers who are all Arizona state certified and trained to teach good driving skills and instill good driving habits for life. Along with providing driving lessons, Cantor's Driving School is an Arizona Department of Transportation (ADOT) Motor Vehicles Division (MVD) contractor, so Cantor's

A Final Evaluation can only be given after 10 hours of behind-the-wheel driver training with an ADOT MVD approved driving school like Cantor's Driving School.
