**Leesburg, Virginia, August 28, 2020** – *Inc.* magazine today revealed that **Adeptus Solutions, Inc.**, a leading technology and management consulting company, has been featured in *Inc.* magazine for the 2<sup>nd</sup> consecutive year. Adeptus Solutions is an ISO 9001:2015, ISO/IEC 27001:2013 certified firm, and is appraised for its federal division at CMMI Level III for Services. We are ranked number 1321 on *Inc.* magazine annual *Inc. 5000* list, the most prestigious ranking of the nation’s fastest-growing private companies. The list represents a unique look at the most successful companies within the American economy’s most dynamic segment—its independent small businesses. Intuit, Zappos, Under Armour, Microsoft, Patagonia, and many other well-known names gained their first national exposure as honorees on the *Inc. 5000*.

“Our growth is built on the achievements of our employees and their dedication,” says Erica Robertson, President and CEO of Adeptus Solutions. “We recognize that modern IT solutions require an agile and adaptive approach to integrating automated tools, technology, and efficient processes.”

“This *achievement* is a result of internal improvements that allowed us to focus on adding value and quality during this challenging economy. Our focused decision making, quality process, and strategic planning meet our customer’s needs. However, our *growth* is a testament to our employees, clients, and our leadership team.”

“As a *small business owner*, it is important to establish a strong support system. On a personal note, I want to recognize my team. From the beginning, we set out to put our clients first — what we call a concierge approach to IT service delivery and management. Adeptus is extremely grateful to our employees, clients, and partners who helped us achieve this ranking!”

Again, “**congratulations** to all our employees for a job well done!”

Not only have the companies on the 2020 Inc. 5000 been very competitive within their markets, but the list as a whole shows staggering growth compared with prior lists as well.
