“With over 15,000 clients in more than 50 countries, zero have had warnings-based allegations brought against them.”

Why Clarion Safety?

Our 30 years of safety initiative leadership means we have unparalleled knowledge of worldwide standards and codes to meet your specific regulatory requirements, from OSHA, ANSI and ISO to WEEE, RoHS and REACH. We offer thousands of quality, in stock products made in the USA in our state-of-the-art production facility in Milford, PA. You can also take advantage of our wide range of custom printing options related to identification, asset management and branding.

Distinctive Competence That's Proven Effective

Expertise: Our best practice products have proven effectiveness. With 15,000+ clients and nearly 100 million labels and signs in use, zero Clarion Safety customers have had “failure to warn” or “inadequate warnings” allegations brought against them.

Guidance: We focus on a hands-on approach to guide customers to safety label and sign choices in line with their needs AND the latest standards. 100% of our customer service team is “Clarion Essentials” certified, a proprietary, standards-based education curriculum.

Service: We've perfected a design and ordering process that's fast, easy and precise, so that we deliver when you want AND we get it right: 99.5% of our orders are delivered on-time, and they're received with 99.1% satisfaction.

Partnership: We specialize in helping customers get up-to-date – and stay there. We're committed to being your partner in safety by offering free safety label and sign assessments.
