NSL Analytical Services, Inc. Announces New “Tech Talk” Webinar Series

October 2020 - Cleveland, Ohio: NSL Analytical Services, Inc. has announced the launch of their new “Tech Talk” webinar series. Webinar attendees enjoy exciting presentations, conversations and demonstrations from NSL’s scientists and experts regarding testing strategies, equipment, and techniques, among other related topics.

“We launched our new Tech Talk webinar series as part of our scientific advancement initiative,” said Ron Wesel, CEO of NSL. “We are proud to have tremendous depth and breadth of knowledge among the experts on our team, and we are happy to share their expertise with the broader scientific and quality communities.”

The Tech Talk webinar series “leads with science” and offers an in-depth look into the latest trends, technology, and best practices that make a test successful. NSL has hosted several Tech Talk webinars since August 2020, and the recordings of their previous webinars can be found on [the NSL website](#).

The next Tech Talk webinar will be held on November 5, 2020 at 2:00pm. NSL metallurgists Rebecca Stawovy and Ben Schmidt will give a live demonstration of NSL’s Scanning Electron Microscope (SEM) to showcase what a live examination looks like and what kind of information the SEM can provide remotely for clients anywhere in the world. Attendees interested in this Tech Talk webinar can register on [the NSL website](#).

About NSL Analytical Services, Inc.

A recognized leader in analytical testing, NSL is an Independent Commercial Testing Laboratory specializing in Inorganic Elemental Chemical Analysis, Metallurgical and Microscopy Evaluations, Polymer Materials Testing and Metal Powder Evaluations. Since 1945, NSL has helped to verify the highest quality, performance, and safety standards in product materials through comprehensive testing services. Customers in the aerospace and defense, power generation, oil and gas, transportation, and medical industries trust their most critical materials testing needs to NSL Analytical.
