## **DoALL Sawing Products Announces the ServiceALL® Saw Service Program**

Ensure your band saw(s) are operating at peak performance and decrease “down machine” events with the ServiceALL® program.

Minneapolis, November 17, 2020: DoALL Sawing Products is proud to announce the new \*ServiceALL® program, designed to improve the service life of customers’ industrial sawing machines.

“A ‘saw down’ emergency is extremely costly to our customers with regards to money, time and customer relationships. Our ServiceALL program offered to users of band saws is another way the team here at DoALL is looking out for the health of customer’s businesses and livelihood. I encourage all users of band saws to enlist a disciplined maintenance program. ServiceALL from DoALL takes away the worry and unknown created by neglected sawing machines,” Steve Yulga, Director of Sales and Marketing, DoALL Sawing Products.

By choosing the DoALL ServiceALL® program, customers will realize a number of benefits in the parts production process, including increased accuracy, consistent cut every time, a longer lasting sawing machine, superior blade performance and life, and, best of all, a decreased need for costly emergency maintenance events.

“Our ServiceALL program was designed to help customers improve their operations, by providing consistent performance of their sawing machines through regularly scheduled maintenance events,” Diana Janke, Service Manager, DoALL Sawing Products.

Customers and potential customers are encouraged to learn more about the [DoALL ServiceALL®](#) program, by visiting our website. DoALL Sawing Products has published the complete program details and pricing per-machine.

\*Please read the [terms and conditions](#) on our website for program details and how to participate.

*[DoALL Sawing Products](#) was founded in 1927 by Leighton A. Wilkie; who invented and manufactured the first metal cutting band saw in 1933. With over 90 years of manufacturing history in the Minneapolis, MN area, the DoALL brand has been known for innovation from day one. With the most complete line of band saws, blades and fluids in the industry, DoALL offers industrial sawing machines for high production, general-purpose, miter cutting, vertical contour, and custom engineered sawing solutions.*
