# INNERIUS

Resource Recovery with Supercritical Water Oxidation

## EFFICIENT

Compact, fast and effective treatment including emerging contaminants

### DECENTRALIZED

Treat at source, quick and flexible deployment

## RESILIENT

Feedstock agnostic and self-sufficient operation

### **SUSTAINABLE**

Resource recovery of valuable minerals and clean water

# MOVEMENT OF ACCOUNTABILITY TO SOCIETY

Our mission is to support a clean and healthy environment to sustain life. We do that using cutting-edge science to recover resources from the waste our society generates and keep our drinking water clean!
