

Sagenext Relies on phoenixNAP to Deliver Superior Tax and Accounting Software Hosting Services

phoenixNAP's dedicated servers accelerate Sagenext cloud hosting services

Phoenix, AZ, November 24, 2020 – phoenixNAP®, a global IT services provider offering security-focused cloud infrastructure, dedicated servers, colocation, and specialized Infrastructure-as-a-Service (IaaS) technology solutions, today announced collaboration with Sagenext, a US-based tax and accounting software hosting provider. The company leverages phoenixNAP's dedicated server platform to provide specialized application hosting solutions to businesses looking to move their tax and accounting software to the cloud.

As a specialized hosting provider, Sagenext offers QuickBooks, Drake Tax, Sage ERP, UltraTax CS, Lacerte Tax, ProSeries, and TaxWise hosting services to customers in the US and UK. By providing reliable cloud hosting solutions for running tax and accounting applications, Sagenext helps businesses cut their IT costs and improve productivity. phoenixNAP's Bare Metal server infrastructure is critical to Sagenext to ensure reliability, security, and scalability of its services across the globe.

"This collaboration with Sagenext is a testament to our longstanding mission of delivering turnkey infrastructure solutions tailored to meeting the demands of modern organizations," said Ian McClary, President of phoenixNAP.

"Our dedicated servers give organizations like Sagenext access to the most powerful and robust hardware on the market today, all the while helping them reduce infrastructure costs. We manage the underlying infrastructure, security, network uptime, and DDoS attack mitigation, while clients only have to worry about the applications running on their servers, resulting in lower capital expenses."

phoenixNAP's dedicated servers provide Sagenext with access to dedicated CPU, RAM, and storage resources, allowing it to fine-tune environments according to application-specific requirements. This degree of flexibility also allows Sagenext to easily optimize their environments for security, performance, and stability.

Powered by industry-leading technologies, phoenixNAP's dedicated servers deliver exceptional performance, security, and connectivity to ensure businesses like Sagenext are able to future-proof their position in the market. The collaboration with Sagenext confirms phoenixNAP's position as the go-to infrastructure provider for businesses looking to enhance their infrastructure security and optimize costs, while delivering fast, reliable, and scalable solutions to their clients.

"Our clients depend on us to keep their application up and running 24/7, without exceptions. We needed a partner that guarantees 100% uptime to make the same promise to our clients. phoenixNAP was the obvious choice for us. Their state-of-the-art technology meets all our strict requirements for network uptime, security, and workload-optimized hardware," said Ned Adams, Sales and Operations Head at Sagenext.
