Powerful — Yet Easy to Use
Skip the hassles of manually populating MSI tables or troubleshooting custom actions. InstallAware provides all the power of Windows Installer technology, with the simplicity of a point-and-click environment.

Single-Click Installations
Forget clicking through endless Next buttons – one click is all it takes!

- **Ethereum Payments** — *ETH Blockchain Transaction Processing*
  Receive secure and discreet payments directly from end-users at install-time; easily lookup past purchases during reinstalls with the Solidity Smart Contract.

- **Azure DevOps** — *Empowering Remote Work With Global Collaboration*
  Add projects to Azure DevOps Services, Visual Studio Team Services, and TFS; use the Team Project Explorer, get projects, and perform check-ins/check-outs.

- **Partial Web Deploy** — *Setup Automatically Resumes Broken Downloads*
  Your main setup works without mandating an Internet connection. Multiply redundant downloads are verified at runtime for the proper code signing entity.

- **One-Click Patching** — *MSP-Generation With Byte-Level File Differencing*
  Point-and-click on your old and new setups, click Build Patch, and InstallAware automatically generates a native Windows Installer (.MSP) file.

- **Application Pinning** — *Start Screen, Start Menu, Taskbar, Even Windows 10!*
  Give your applications the exposure they deserve. Only InstallAware programmatically pins applications on all Windows platforms and versions.

- **90% Smaller Compression** — *With Advanced Heuristic and Binary Filters*
  Only InstallAware further compresses Microsoft's technology frameworks, such as Microsoft SQL Server, 50% - 90% smaller than their already compressed size!

- **ARM64 Platform** — *Triple Hybrid Setups for All Desktop Windows Platforms*
  Build a single setup for X64, ARM64, and X86 all in one file with InstallAware's full-stack support for Desktop Windows 10 on always-connected Cellular PCs.

InstallAware

Perfect for Power Users
Though InstallAware is simple enough to use without programming skills, it provides an unmatched set of features for the advanced setup developer.

- **Two-Way Integrated IDE**
  Use the visual designer to instantly and automatically generate MSIcode scripts, switch to the MSIcode view to control every aspect of your setup.

- **MSIcode**
  InstallAware's powerful MSIcode abstracts Windows Installer conditions, installation sequences and syntax into a human-readable setup script.

- **Windows Feature and Server Role Configuration**
  Prepare the target OS for your setup with 100% visual configuration of features and roles to enable on X86, AMD64, and AARCH64 platforms.

- **IIS Support**
  Install and configure IIS websites, virtual folders, and application servers. Now with support for IIS version 8.

- **Extensive Database Support**
  Run SQL on Microsoft SQL Server (through 2019), MySQL (through 8.x), and Oracle (through 18c), without any database client software.

- **Fastest Setup Capture in the Industry with Stackable Filters**
  Full Unicode support, four stackable, customizable filters to eliminate capture noise from common sources, and the fastest capture speeds.

- **Application Runtime Wizard with MST Transform Support**
  Create and consume your own technology prerequisite installers, transform MSI based runtimes with multiple MST files.

- **Unlimited Triple-Mode Web Updates**
  Force install/run your latest app version, or perform scheduled updates (similar to Windows Update), or implement manual update checking.

Create the Most Impressive Setups
InstallAware's advanced interface tools make the best impression on your app-savvy end-users, including unique fading and sliding transition effects.

- **Acrylic Material/Fluent Design System**
  InstallAware is the first and only to support Microsoft's Fluent Design System. Enjoy 18 unique and fully customizable setup themes.

- **Simple Custom Dialogs**
  Powerful dialog-editing tools let you handle any task. Build interactive progress indicators; even capture progress from nested setups.

Elevated-On-Demand Installations
Install without ever requiring elevation or administrator help, or with full privileges – based on end-user choices at the start of your setup routine.
