

Peopletrail® marks one successful year for dynamic consumer background screening portal

DRAPER, January 20, 2021 – Peopletrail LLC, the leading consumer reporting agency providing advanced background checks and pre-employment screening, today marks the successful one-year completion of their new exclusive consumer background screening portal, [Consumer Credentials](#). The Consumer Website provides high quality and reliable online personal background checks to individuals looking to stay on top of their information.

According to the company data, the new platform revenue grew by more than 500% compared to the earlier personal screening division revenue. Despite the COVID-19 economic fallout in the United States, the personal background check industry boomed, and Consumer Credentials flourished.

Founder and CEO Wallace Davis says, “For an entire year now, consumers have been able to combat a growing problem: The violation of their Consumer Rights. Privacy violations occur when companies compile erroneous or immaterial information about consumers and report it to employers or creditors. By accessing Peopletrail’s online portal, consumers can be one step ahead of employers, and other agencies who report inaccurate, irrelevant credit/criminal and personal information gathered on their personal reports. We want to get the word out that there’s a place where consumers can go to receive and dispute personal and damaging information that may affect their future credit and or employment.”

Visit the website for more information about [Consumer Credentials](#).
